

Making the Grade

The Status of School Library Media Centers in the Sunshine State and How They Contribute to Student Achievement affirms that school library media programs positively impact student achievement when the following conditions exist:

- ✓More staffing
 - ✓More resources
 - Larger per pupil budget**
 - ✓High Circulation
 - ✓More student visits to the media center
 - More internet accessible computers**
 - ✓An electronic card catalog
 - ✓An information literacy skills curriculum
 - ✓The school and media center have a web page
- Elementary flexible access**

Note: Hickory Creek has good circulation overall but there are areas of weakness when it comes to serving FCAT levels 1-3 populations. This statistic could be drastically changed if the school board adopted flexible access policy were implemented in lieu of scheduled classes.

Copies of the complete Making the Grade study are available from your school library media center or for checkout from the District Media Services Dept. Please call 819-3947.

Making the Grade was the largest school library study ever completed which focused on student achievement and school grades. There were 1715 schools studied.
Those items with a check mark indicate where your school makes the grade.
Areas in red are not intended to be punitive, but to assist you in planning for next year.

Scheduling of Media Center
 The District Media Handbook (pages 5.4 & 5.5) states that the district procedure for elementary schools is to have a flexible access schedule. The Illinois Study indicates that reading scores were 10% higher in schools where the media center functions on a flexible access schedule and the media specialist actively collaborates with the classroom teacher. For more information about flexible access see the American Library Association weblink listed below.
