

# Doceri + Camera

## APP SMASH CHALLENGE

### WHAT IS DOCERI?

Doceri is an Interactive Whiteboard app (similar to Educreations) which allows students and teachers to create a lesson or presentation, insert images, save and edit projects and record a screencast video that can easily be saved or shared.

### INTEGRATION IDEAS

- Students solve math problems and explain the process.
- Use screen recordings for “Flipped Classroom” lessons.
- Take pictures of student writing or other work, then annotate while recording feedback.
- Students take a photo of text they are reading, then explain main idea, highlight, etc.

### TASK CHALLENGE

1. Download the FREE Doceri app.
2. Use your iPad camera to take a picture of a chart, photograph, or worksheet. You can also upload a picture file to Edmodo from your computer, then share to your Camera Roll.
3. Open the Doceri app. Click on the  icon, then choose your picture from the Iphoto Library.
4. Press down and hold to change annotation tool colors and settings.
5. Press the record button, use the annotation tools, and create a tutorial lesson.
6. Press the share button  and save to Edmodo.
