

First things first, what is OWA?

Outlook Web App (OWA) is a web based email client that lets you use a compatible Web browser to access your Office 365 mailbox from any computer that has an Internet connection. OWA can be used to read and send e-mail messages, organize contacts, create tasks, and manage your calendar. It does not require you to configure complex client software and you don't even need Microsoft Office on the computer.

Access OWA from your district-provided pc from a school/district building-

1. Launch Internet browser(*Note- Internet Explorer 9 does not contain spell check, Chrome browser is not currently supported from district networks*) and access the following link:

SJCSD Office 365 OWA Link - <https://www.outlook.com/owa/stjohns.k12.fl.us>

2. You will be automatically logged in to OWA using your STJOHNS credentials (e number) in the background. The "Outlook Web App loading" (figure 1) screen will display briefly before you are taken to your OWA Mailbox (figure 2).

Access OWA from home or another non-school/district building-

1. Launch Internet browser (Note- Internet Explorer 9 does not contain spell check, Chrome browser is not currently supported from district networks) and access the following link:

SJCS Office 365 OWA Link - <https://www.outlook.com/owa/stjohns.k12.fl.us>

3. A sign-in page will display. Enter your STJOHNS credentials (e number and password) and click "Sign In"

A screenshot of a sign-in page. The page title is 'Sign In'. Below the title, the domain 'STJOHNS.K12.FL.US' is displayed. A large text box contains the instruction 'Type your user name and password.'. Below this, there are two input fields: 'User name:' and 'Password:'. The 'User name:' field has a placeholder text 'Example: Domain\username'. At the bottom of the form, there is a 'Sign In' button.

4. After clicking “Sign In”, a sign-in progress screen (figure 3) will display briefly before taking you to your “Mailbox” (figure 2). You are now logged into OWA. You are now signed in to OWA.
