

**St. Johns County School District  
MS Physical Education Waiver Request Form**

Florida middle school students are required by state statute to take at least one semester of physical education during each year of middle school. Parents are allowed to request a waiver from the requirement if their child is participating in physical fitness activities outside of the school day that are equal to or in excess of the requirement.

In addition the school can waive this requirement if the child needs remedial courses such as Intensive Reading and/or Intensive Math.

Through the completion of this form, you are requesting that your child be waived from the physical education requirement.

I request that my child \_\_\_\_\_ be allowed to waive the Physical Education requirement for the 20 - 20- school year due to his/her participation in physical fitness activities outside of the school day that are equal to or great than the Physical Education hours required by state statute.

Sport(s) played outside of school: \_\_\_\_\_

Number of weeks per year: \_\_\_\_\_

Number of minutes per week: \_\_\_\_\_

By signing below I am stating that my child participates in physical fitness activities outside of the school day that are equal to or greater than the state statute required physical education course. The school district has the authority to request evidence that a student has met the Physical Education requirements through alternate activity/activities.

I understand the course my child will take in lieu of physical education is based on availability.
