

Please Note:

All standards in the state course description are designed to be learned by the end of the course. This guide represents a recommended time line and sequence to be used voluntarily by teachers for planning purposes. Specific questions regarding when content will actually be addressed in a specific course are best answered by the individual teacher.

Teachers may use a wide variety of instructional materials throughout their course. The Possible Resources listed may include the district adopted instructional resource or supplemental resources that align to the topic and/or standard. These Possible Resources provide sample problems that align to the topic/standard.

Publisher Resource:

Thinking Mathematically, 6th edition, Blitzer

Other Course Supplemental Resources:

[Math Nation](#) (University of Florida and Study Edge partnership to help students succeed on the Algebra 1, Geometry and Algebra 2 FSA EOC)
Username and password will be the student's active directory information provided by the teacher.

[Khan Academy](#) (Personalized learning resource for all ages including instructional videos and practice exercises)

Liberal Arts Mathematics 1

2018 – 2019

	Week	Major Concepts / Topics	Possible Resources
Quarter 1 Aug 10 – Oct 13	1 8/10 - 8/13	Chapter 5 (Unit 1) – Number Theory and the Real Number System <ul style="list-style-type: none"> Section 5.2: The Integers; Order of Operations 	Khan Academy - Order of operations
	2 8/14 – 8/20	<ul style="list-style-type: none"> Section 5.3: The Rational Numbers Quiz Section 5.4: The Irrational Numbers Section 5.5: The Real Numbers and Their Properties; Clock Addition Review and/or Assessment 	Khan Academy - Rational and irrational numbers Khan Academy - Irrational numbers Khan Academy - Arithmetic properties
	3 8/21 – 8/24	Chapter 6 (Unit 2)– Algebra: Equations and Inequalities <ul style="list-style-type: none"> Section 6.1: Algebraic Expressions and Formulas Section 6.2: Linear Equations in One Variable and Proportions 	Khan Academy - Algebraic expressions Khan Academy - Linear equations and inequalities
	4 8/27 – 8/31	<ul style="list-style-type: none"> Section 6.3: Applications of Linear Equations Section 6.4: Linear Inequalities in One Variable 	Khan Academy - One-variable linear inequalities Khan Academy - Two-step equations word problems IXL – Linear inequalities: word problems
	5 9/4 – 9/7	<ul style="list-style-type: none"> Solving Radical Equations Review Unit 2 Test 	Khan Academy - Radical equations and functions Khan Academy - Solving radical equations
	6 9/10 – 9/14	Chapter 7 (Unit 3) – Algebra: Graphs, Equations, and Linear Systems <ul style="list-style-type: none"> Section 7.1: Graphing and Functions Point slope and slope intercept including graphing 	Khan Academy - Graph from slope – intercept form
	7 9/17 – 9/21	<ul style="list-style-type: none"> Standard form including graphing Manipulating the three forms Section 7.1 Linear Function real world applications 	Khan Academy - Intro to linear equation standard form
	8 9/24 – 9/28	<ul style="list-style-type: none"> Section 7.2: Linear Equations and Their Graphs Section 7.2 Linear Function real world application 	Khan Academy - Graphs of linear equations
	9 10/1 – 10/5	<ul style="list-style-type: none"> Domain and range with set and interval notation (linear and non-linear) Section 7.4: Graphing and shading one inequality 	Khan Academy - Two-variable inequalities from their graphs
	10 10/8 – 10/12	<ul style="list-style-type: none"> Section 7.4: Graphing and shading one inequality Review Unit 3 Test 	

All standards in the state course description are designed to be learned by the end of the course.
