Using Home Access Center

Home Access Center (HAC) is a browser-based student information system that allows you to view student registration, report card, attendance, discipline, transcript, success plan, course request, classwork, and scheduling information as it is entered in the school district's database.

Home Access Center Menu

The menu options in the Home Access Center banner provide access to HAC's main pages. Clicking an icon displays a page with related tabs, each of which is a self-contained page of information on your student. For example, the Grades option displays a page with tabs on IPRs, Report Cards, and other subjects associated with grading. Clicking a tab displays the page indicated. Most HAC pages also include links that when clicked, display a window with additional details.

The following pages can be accessed using the menu options in the HAC banner.

The My Alerts page includes checkboxes for the following types of alerts. If you are a guardian who can access multiple students in HAC, a separate set of boxes displays for each student. Checking a box enables the type of alert indicated.

- **Attendance** - Allows email alerts to be sent when absence, tardy, and attendance codes are entered for your student. You can limit the alerts to certain codes. When the Attendance box is checked, its description becomes a link. Click the link to display a window listing the available codes. To receive all alerts, leave the Any box checked. To select individual codes, uncheck the Any box, check the boxes for the codes you want, then click Save.

- **Course Average** - Allows email alerts to be sent on your student's course averages. To limit the alerts to averages outside a range, enter the bottom of the range in the below field - for example, 75 for averages less than 75 - and the top of the range in the above field - for example, 89 for averages of 90 or greater. Enter whole numbers; decimals are not allowed. To enable alerts for all averages regardless of their level, leave the two fields blank.
