Elementary Inservice Sessions

Kindergarten to 2nd Grade

Welcome and House Keeping 8:00-8:20	
McGraw Hill Science 8:25-9:30	
Choice Session 1 9:40-10:25	**Choice Session 2** 10:30-11:15
Transferring Foundational Skills to Real Reading	Transferring Foundational Skills to Real Reading
AI in SJCSD	AI in SJCSD
Strategies to Support Students on Access Points in the General Ed. Classroom	Strategies to Support Students with Autism in the General Ed. Classroom
Redirecting Student Behavior	Redirecting Student Behavior
Intervention for Students with a Substantial Math Deficiency	Language Learning and Compliance: Tools to Support ELL Academic Growth
ELA Learning Ladders	The Writing Rope
Lunch 11:15-12:45	
Behavior Strategies/Support and ESE Trauma Informed Care 12:45-2:15	
Structured Collaboration/PLC 2:20-3:30	

Course Descriptions: Choice Session 1

Course Title	Course Description
Transferring Foundational Skills to Real Reading	Learn how to support the transfer of foundational skills from Fundations to fluent reading in decodable texts through intentional, effective instruction.
Artificial Intelligence in SJCSD	Discover how artificial intelligence is shaping education in SJCSD. This session covers district-approved AI guidelines, approved tools available for educators, and a hands-on look at MagicSchool's teacher-focused features to support planning and instruction.
Strategies to Support Students on Access Points in the General Ed. Classroom	This training provides practical strategies and tools for supporting students who are working on Access Points within the general education setting. Participants will explore inclusive practices, differentiated instruction techniques, and collaborative approaches to ensure meaningful participation and progress for all learners.
Redirecting Student Behavior	This session will provide participants with practical strategies for how to redirect student behaviors in the classroom.
Intervention for Students with a Substantial Math Deficiency	This session is open to leaders who have access to iReady Math Toolbox (ESE case managers/LEAs and MTSS team members with designated access). Participants in this session will learn how to navigate the site and find the best resources to provide their teachers throughout the school year.
ELA Learning Ladders	With a focus on PLC question #1, what do we expect students to learn, participants will analyze the vertical progression of the ELA B.E.S.T. Benchmarks with an emphasis on developing a ladder of learning targets. Participants will learn about, and experience new instructional and assessment resources tied to the learning ladders.

Artificial Intelligence in SJCSD	Discover how artificial intelligence is shaping education in SJCSD. This session covers district-approved AI guidelines, approved tools available for educators, and a hands-on look at MagicSchool's teacher-focused features to support planning and instruction.
Strategies to Support Students with Autism in the General Ed. Classroom	This training equips educators with practical strategies to effectively support students with autism in inclusive classroom settings. Participants will explore ways to foster communication, manage sensory needs, promote social engagement, and differentiate instruction to meet diverse learning profiles.
Redirecting Student Behavior	This session will provide participants with practical strategies for how to redirect student behaviors in the classroom.
Language Learning and Compliance: Tools to Support ELL Academic Growth	Overcoming instructional challenges when ELLs are in your classroom.
The Writing Rope	Explore The Writing Rope, a practical framework that connects key strands of writing instruction. Learn engaging strategies to help students become confident, skilled writers- one strand at a time!

Participants will explore inclusive practices, differentiated instruction techniques, and collaborative approaches to ensure meaningful participation and progress for all learners.
Maximizing the Science Block for Grades 3, 4, and 5	This session will include a review of 2024-2025 Statewide Science Assessment (SSA) data, SSA design, and the supplemental resources in OneNote to support our benchmarks.
Performance Matters: Utilizing the Student Item Analysis Report (Grades 3-5)	This professional development session introduces teachers to the foundational features of the Performance Matters platform with a specific focus on the Student Item Analysis report. Participants will learn how to navigate the system, interpret student data to create instructional groupings and plan targeted support. This session is designed for teachers who are new to St. Johns County, new to teaching grades 3–5 or seeking a refresher on effectively using data to drive student achievement.
