Secondary

Inservice Registration and Bocument Guidelines Inservice Registration

All attendees must register in BusinessPlus before attending any inservice sessions. Please use the links below to register if you haven't already done so.

September 19th Inservice Day: Secondary		
Subject	Inservice Location	Link to Register
Social Studies	December of a LIC	Click <u>here</u> to register.
World Languages	Beachside HS	Click <u>here</u> to register.
Science	Allen D. Nease HS	Click <u>here</u> to register.
Math	Creekside HS	Click <u>here</u> to register.
ELA		Click <u>here</u> to register.
IR and ILCs	Tocoi Creek HS	Click <u>here</u> to register.
CTE		Click <u>here</u> to register.
Middle School Fine Arts		Click hare to register
and PE	Pacetti Bay Middle	Click <u>here</u> to register.
High School Fine Arts, PE,	School	Click hare to register
and HOPE		Click <u>here</u> to register.

All middle and high school ILCs will attend the IR sessions at TCHS. The K8 schools with only one ILC will have their ILC follow the elementary schedule for their school site. Any K8 with two ILCs will have the ILC for middle school attend the IR sessions at TCHS.

Secondary ESE teachers should choose the content area that best aligns with the curriculum support they provide.

Bocument Guidelines

All choice sessions and descriptions are included in this document. Sessions are broken down by content at each site. There is also a list of non-curricular sessions included with each content area. Please note the location of your day and allow ample time for parking, both in the morning and after lunch.

All SJCSD will follow the same hours on an inservice day:

8:00 am - 3:30 pm

Table of Contents

Course Title	Course Description	Room
Intro to National History Day (NHD) - Paige Bagby from FSCJ	Learn the ins and outs of National History Day (NHD), including how to get started, explore project categories, and support students throughout the process. Learn how to run NHD in your classroom or as an extracurricular opportunity. Ideal for newcomers or anyone looking for a quick refresher!	4-049
America250- From Subjects to Citizens: A Revolution of Words- Birthday of the Declaration of Independence and its Impact on the Nation and World	On July 4, 2026, our nation will commemorate and celebrate the 250th (semi-quincentennial) anniversary of the signing of the Declaration of Independence. The 2025-2026 school year brings a historic opportunity to build civic knowledge, pride, and engagement with our students. Using LFI resources, help students focus less on the division of this time period and more on the beauty behind the American story, Founding principles, and continued quest for a "more perfect union." High-quality, standards-based resources used in conjunction with the theme of America250 and required instruction and observances will give social studies teachers in St. Johns monthly lessons and resources for the entire school year. Join us to learn more!	Auditorium
Investigation Declaration: An Interactive Gaming Approach to Teaching the Declaration of Independence (iCivics)	Explore iCivics and all it has to offer!	4-024
Language Learning and Compliance: Tools to Support ELL Academic Growth	Overcoming instructional challenges when ELLs are in your classroom.	4-008
Performance Matters: Utilizing the Student Item Analysis Report (Secondary)	This professional development session introduces teachers to the foundational features of the Performance Matters platform with a specific focus on the Student Item Analysis report. Participants will learn	4-009

	how to navigate the system, interpret student data to create instructional groupings and plan targeted support. This session is designed for teachers who are new to St. Johns County, new to teaching grades 6-12, or seeking a refresher on effectively using data to drive student achievement.	
Artificial Intelligence in SJCSD	Discover how artificial intelligence is shaping education in SJCSD. This session covers districtapproved AI guidelines, approved tools available for educators, and a hands-on look at MagicSchool's teacher-focused features to support planning and instruction.	Media Center
Strategies to Support Students on Access Points in the General Ed. Classroom	This training provides practical strategies and tools for supporting students who are working on Access Points within the general education setting. Participants will explore inclusive practices, differentiated instruction techniques, and collaborative approaches to ensure meaningful participation and progress for all learners.	4-011

Course Title	Course Description	Room
Manipulatives in Middle School Math (Hand 2 Mind)	Ready to bring algebra to life and geometry into motion? Join us for a high-energy, hands-on session where middle school math meets the magic of manipulatives! In this interactive workshop, you'll explore how Algebra Tiles can turn abstract equations into visual puzzles and how AngLegs can transform geometry into a buildable, touchable experience.	245
Dr. Raj Shah High School Lesson Planning Session	Continue the conversation with our inspiring opening speaker, Dr. Shah, in this exclusive follow-up session focused on effective lesson planning. Designed for a small group of up to 20 teachers, this interactive session offers a unique opportunity to dive deeper into practical strategies for designing lessons that are purposeful, engaging, and aligned with student thinking. Bring your questions, ideas, and curiosity, this is your chance to collaborate closely with Dr. Shah and walk away with insights you can apply immediately in your classroom.	270
TI Tech Tools – Functions and Representations	Unlock the power of TI graphing calculators to deepen students' understanding of functions! In this interactive session, the TI team will guide you through strategies for using technology to explore functions through multiple representations—graphical, numerical, algebraic, and verbal.	240

	Learn how to:	
	 Visualize and analyze functions dynamically Connect representations to build conceptual understanding Use TI tools to enhance classroom instruction and student engagement Whether you're new to TI or looking to expand your skills, this session will equip you with practical techniques to bring functions to life in your classroom. If you have your own TI calculator, bring it along! 	
High School Algebra 1A Exploring Curriculum Maps and Thinking Classrooms	This session offers Algebra 1A teachers an opportunity to explore updated curriculum maps and experience a sample Building Thinking Classroom. Teachers will discuss ways to use these resources to support students in developing foundational math skills needed for success in Algebra 1. This session is only for Algebra 1A Teachers.	230
Elevating 7th Grade Math with Textbook Tools and Teacher Insights	Discover practical ways to bring 7th grade math standards to life using your curriculum resources and the shared experiences of fellow educators. This session blends textbook strategies with real-world classroom insights to support effective instruction and student engagement. This session is for 7th grade standard teachers only.	235
Language Learning and Compliance: Tools to Support ELL Academic Growth	Overcoming instructional challenges when ELLs are in your classroom.	550

Performance Matters: Utilizing the Student Item Analysis Report (Secondary)	This professional development session introduces teachers to the foundational features of the Performance Matters platform with a specific focus on the Student Item Analysis report. Participants will learn how to navigate the system, interpret student data to create instructional groupings and plan targeted support. This session is designed for teachers who are new to St. Johns County, new to teaching grades 6-12, or seeking a refresher on effectively using data to drive student achievement.	555
Artificial Intelligence in SJCSD	Discover how artificial intelligence is shaping education in SJCSD. This session covers districtapproved AI guidelines, approved tools available for educators, and a hands-on look at MagicSchool's teacher-focused features to support planning and instruction.	Media Center
Strategies to Support Students on Access Points in the General Ed. Classroom	This training provides practical strategies and tools for supporting students who are working on Access Points within the general education setting. Participants will explore inclusive practices, differentiated instruction techniques, and collaborative approaches to ensure meaningful participation and progress for all learners.	560

Course Title	Course Description	Room
Manipulatives in High School Math (Hand 2 Mind)	Think manipulatives are just for younger students? Think again! In this dynamic, hands-on session, we'll explore how algebra tiles and AngLegs can deepen conceptual understanding and spark engagement in high school math classrooms. Discover how algebra tiles can demystify factoring, solving equations, and completing the square, while AngLegs bring geometric relationships and theorems to life—literally! You'll leave with ready-to-use strategies, classroom-tested activities, and a renewed appreciation for the power of tactile learning at the secondary level. Whether you're teaching Algebra 1 or Geometry, this session will equip you with tools to make abstract concepts click for your students—one tile and one angle at a time!	245
Dr. Raj Shah Middle School Lesson Planning Session	Continue the conversation with our inspiring opening speaker, Dr. Shah, in this exclusive follow-up session focused on effective lesson planning. Designed for a small group of up to 20 teachers, this interactive session offers a unique opportunity to dive deeper into practical strategies for designing lessons that are purposeful, engaging, and aligned with student thinking. Course Title	Course Description	Room
Bridging the Gap: Supporting Striving Readers in Secondary Classrooms - Dr. Jenny French, Engaging Learners	Did you know that 70% of 8th graders in the U.S. aren't reading on grade level? If you're a secondary teacher, you've likely encountered students who struggle to access your content, and you may not have the tools to help. This session introduces the three types of striving readers sitting in your classroom and shows you how to support each using the curriculum you already have. Walk away with practical, research-based strategies grounded in the science of reading—specifically designed for middle and high school settings—that can spark powerful, school-wide change.	Auditorium
If You Can Write It, You Can Read It! (presented by Della Thompson & Katie Ludwig, PBMS)	Using Logical Organizational Structure (Text Structure, Transitions, POV, and Author's Purpose) to connect writing and reading instruction at a variety of learning levels. In this workshop, we will focus on combining structure in expository writing to support reading informational texts. Leave this workshop using strategies to connect reading and writing in your instruction.	4-011
Using Group Work to Support Reading and Writing in the Secondary Classroom (presented by Stephanie Itle-Clark, PVHS)	Explore how structured group work can enhance individual reading and writing skills while also addressing common classroom obstacles such as unequal participation. Leave this interactive workshop with strategies to foster collaboration and communication that improve literacy outcomes.	4-017
Transfer of Learning: Building Cold Read Assessments Using StudySync (presented by Sherry Galbraith, ELA 6-8 Specialist)	This session is designed to help teachers build formative and/or summative assessments using cold read texts. Get the essential information you need to be able	4-009

	to successfully create these cold-read assessments using the Florida B.E.S.T. benchmarks and StudySync resources.	
Read 180 Getting Started Q & A (presented by Read 180 Staff)	This is an informal session designed for you, by you. You will have the opportunity to speak with a representative from Read 180 to ask questions that support your instruction now that you've been using the Read 180 system for a few weeks.	4-049
Read 180 Tips & Tricks (from a Current Practitioner) (presented by Ruth Wesley, PMHS)	Learn from a teacher who implemented Read 180 with fidelity and infused engagement strategies within the lessons to invoke more creativity.	4-048
IR Fluency Strategies & Activities (from a Current Practitioner) (presented by Emily Reid, PMHS)	Explore ideas to increase engagement with fluency lessons, while supporting your students with ELA spotlight texts and Read 180.	4-046
Language Learning and Compliance: Tools to Support ELL Academic Growth	Overcoming instructional challenges when ELLs are in your classroom.	4-008
Performance Matters: Utilizing the Student Item Analysis Report (Secondary)	This professional development session introduces teachers to the foundational features of the Performance Matters platform with a specific focus on the Student Item Analysis report. Participants will learn how to navigate the system, interpret student data to create instructional groupings and plan targeted support. This session is designed for teachers who are new to St. Johns County, new to teaching grades 6-12, or seeking a refresher on effectively using data to drive student achievement.	4-045

Artificial Intelligence in SJCSD	Discover how artificial intelligence is shaping education in SJCSD. This session covers district-approved AI guidelines, approved tools available for educators, and a hands-on look at MagicSchool's teacher-focused features to support planning and instruction.	Media Center
Strategies to Support Students on Access Points in the General Ed. Classroom	This training provides practical strategies and tools for supporting students who are working on Access Points within the general education setting. Participants will explore inclusive practices, differentiated instruction techniques, and collaborative approaches to ensure meaningful participation and progress for all learners.	4-041
