SIP AREAS OF FOCUS

BENCHMARK-ALIGNED INSTRUCTION

Measurable Outcome: Achieve 80%+ proficiency in ELA, Math, and Science, 70%+ learning gains, and improve SWD performance above state and district averages.

Action Steps:

- Plan standards-aligned, engaging instruction through PLC collaboration.
- Use common assessment data and observations to guide instructional adjustments.
- Provide targeted Intensive Reading based on specific student needs.

MIDDLE SCHOOL ACCELERATION

Measurable Outcome: Accelerate all eligible Level 4+ students and maintain an acceleration rate of 83% or higher.

Action Steps:

- Automatically place Level 4–5 students in accelerated math.
- Offer summer bridgework for eligible students seeking advancement.
- Monitor performance data to provide targeted support or additional acceleration.

STUDENTS WITH DISABILITIES (SWD) GROWTH

Measurable Outcome: Close SWD learning gaps to exceed state and district proficiency averages in ELA and Math.

Action Steps:

- Identify and monitor L25 students with a focus on SWD.
- Collaborate on targeted small-group interventions to close achievement gaps.
- Support inclusive instruction through strategic scheduling and administrative walkthroughs.

STUDENT ATTENDANCE & POSITIVE CULTURE

Measurable Outcome: Reduce chronic absenteeism by 10% and improve overall student attendance by 3% across all grade levels.

Action Steps:

- Reinforce character through monthly lessons and “The TIGER Way” PBIS expectations.
- Monitor attendance and truancy through MTSS and EWS data.
- Recognize student success through PBIS celebrations, rewards, and incentives.

CELEBRATIONS & SUCCESSES

Highlight key achievements, recognitions, programs, and milestones.

We successfully opened our doors for our inaugural school year and welcomed over 1,400 students. Along with the rich and engaging academic learning that is taking place throughout the campus, our students have also been to exposed to a variety of learning experiences that include developing their digital literacy skills, hands-on learning experiences through our elementary STEM program, and learning the language of music through our wonderful elementary music, middle school band, and middle chorus programs. In addition, MOA has provided experiences in art, media, TV Production, yearbook, and physical education for our Tigers. We were also honored to host our District Leadership, local media, community leaders, and more during the media press release day this summer.

WHAT MAKES OUR SCHOOL UNIQUE

Describe the unique attributes, culture, programs, and opportunities that set our school apart.

Even as a new school, we have already begun to provide our students with enrichment opportunities. Those opportunities include a TV Production class, we have already established an elementary and middle school Robotics Team that will compete in local competitions, host our in-house extended day, have three self-contained access points classes, and have already implemented our PBIS systems tied to our school's TIGER way of life where our students **T**ake responsibility, **I**nclude others, **G**ive their best, **E**nsure safety, and are **R**espectful and kind.
