MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the St. Johns County District School Board (District) has prepared the following discussion and analysis of financial activities for the fiscal year ended June 30, 2020. It is intended to provide a broad overview using a short-term and long-term analysis of the District's activities based on information presented in the financial report and fiscal policies that have been adopted by the School Board (Board). The intent of this discussion and analysis is to assist the reader in focusing on significant financial issues; provide an overview of the District's financial activities; identify changes in the District's financial position; identify material deviations from the approved budget; and highlight significant issues in the individual funds. The Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions and should be considered in conjunction with the District's financial statements and notes to financial statements found immediately following the MD&A.

FINANCIAL HIGHLIGHTS

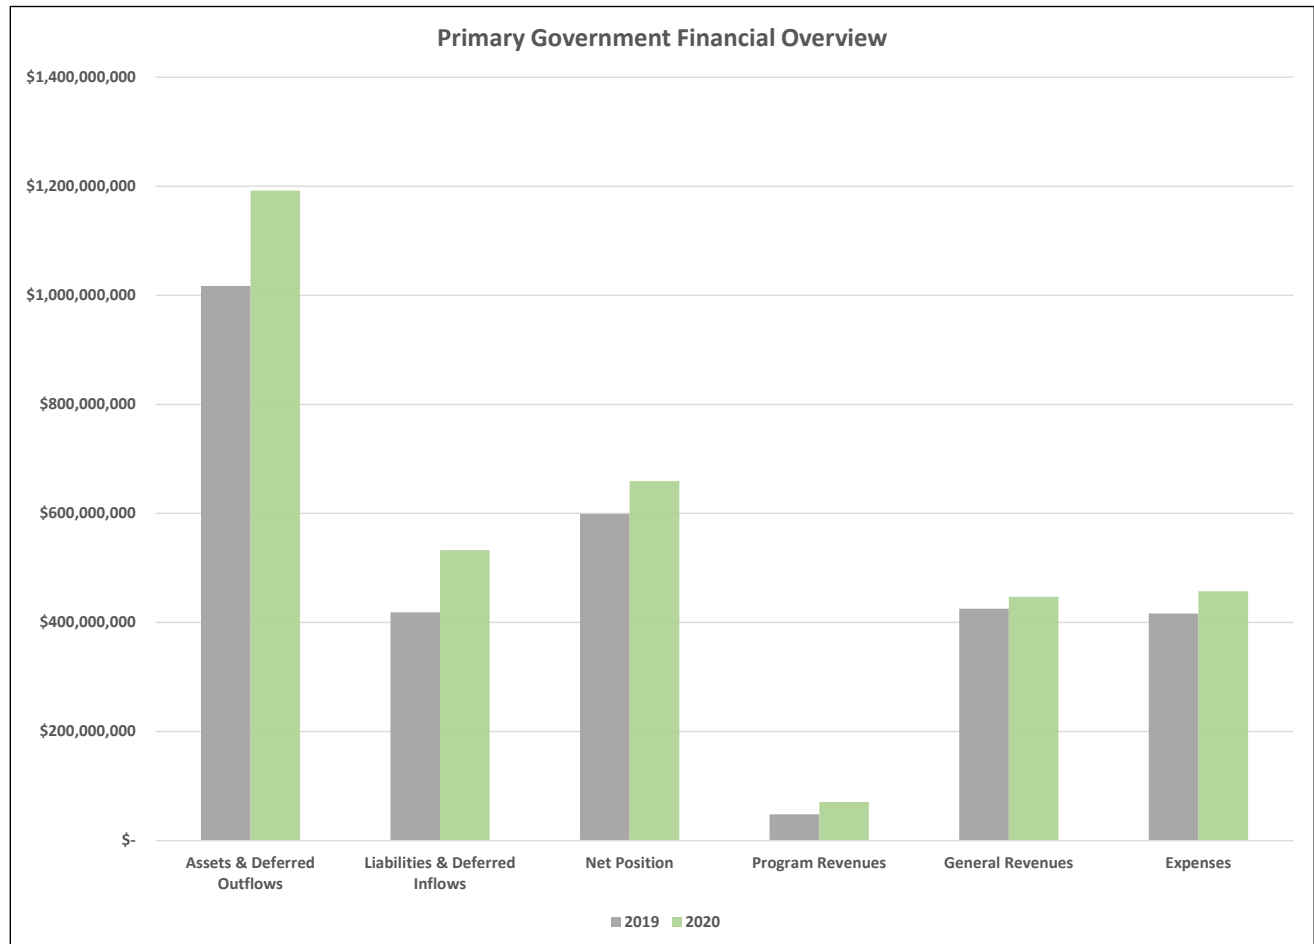

Key financial highlights for the 2019-20 fiscal year are as follows:

- The District's total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources at June 30, 2020, by \$659,491,872 (net position). After deducting investment in capital assets (net of related debt) and restricted net position, the District had a deficit unrestricted net position of \$96,161,577.
- In total, the District's net position increased \$60,729,550, which represents a 10 percent increase from the 2018-19 fiscal year.
- The District's total government-wide revenues of \$517,943,041 were comprised of general revenues of \$447,109,984, or 86 percent of total government-wide revenues, and program specific revenues from charges for services, operating grants and contributions, and capital grants and contributions of \$70,833,057, or 14 percent of total government-wide revenues. This compares to the prior fiscal year with government-wide revenues of \$473,775,459, which were comprised of general revenues of \$425,458,321, or 90 percent of total government-wide revenues, and charges for services, operating grants and contributions, and capital grants and contributions of \$48,317,138, or 10 percent of total government-wide revenues.
- The District's total expenses for governmental activities of \$457,213,491 were offset by program specific revenues of \$70,833,057. The remaining expenses were funded from general revenues and fund balance. In the prior fiscal year, total expenses of \$416,581,917 were offset

with program specific revenues of \$48,317,138, with the remaining expenses funded from general revenues and fund balance.

- The District's governmental funds reported a combined ending fund balance of \$322,250,743, an increase of \$110,909,132, or 52 percent, in the 2019-20 fiscal year in comparison with the prior fiscal year's balance of \$211,341,611. This increase is mainly due to proceeds received from the issuance of the Certificates of Participation, Series 2019A.
- The General Fund total fund balance was \$64,645,582 as of June 30, 2020, and represents an increase of \$1,813,497, or 3 percent, as compared to the prior fiscal year's balance of \$62,832,085.
- The assigned and unassigned fund balance of the General Fund, which represents net current financial resources available for general appropriation by the Board, totaled \$49,962,038 at June 30, 2020, or 14 percent, of total general revenues. For the 2018-19 fiscal year, the assigned and unassigned fund balance in the General Fund was \$47,741,423, or 14 percent of total General Fund revenues.
- The District's investment in capital assets (net of accumulated depreciation) increased by \$49,259,791, or 8 percent, from its balance of \$636,530,253 at June 30, 2019, to \$685,790,044 at June 30, 2020, mainly due to the construction of a new High School "HHH", a new K-8 School "MM", and a two story classroom addition at Liberty Pines Academy.
- The District's capital asset-related long-term debt increased by a net amount of \$82,241,008, or 76 percent, from its balance of \$108,185,949 at June 30, 2019, to \$190,426,957 at June 30, 2020, mainly due to proceeds related to the issuance of Certificates of Participation, Series 2019A, dated November 8, 2019.

The Primary Government financial overview for the 2018-19 and 2019-20 fiscal years is shown below:

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- Government-Wide Financial Statements;
- Fund Financial Statements; and
- Notes to Financial Statements.

This report also includes required supplementary information intended to furnish additional details to support the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide both short term and long term information about the District's overall financial condition, in a manner similar to those of a private-sector business. These include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the District presented on the accrual basis of accounting, specifically:

- The statement of net position provides information about the District's financial position, its assets and liabilities, and deferred inflows/outflows of resources, using an economic resources measurement focus. Assets and deferred outflows of resources, less liabilities and deferred inflows of resources, equals net position, which is a measure of the District's financial health.
- The statement of activities presents information about the change in the District's net position and the results of operations during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

The government-wide statements present the District's activities in the following categories:

- Governmental activities – This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions, such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- Component units – The District presents aggregate financial information for the St. Johns County Education Foundation, Inc. D/B/A INK! (Foundation); St. Augustine Public Montessori School, operated by St. Augustine Montessori Community, Inc.; and the Therapeutic Learning Center Charter School along with St. Johns Community Campus Charter School, both of which are operated by The Arc of the St. Johns, Inc. Although legally separate organizations, the component units are included in this report because they meet the criteria for inclusion provided by generally accepted accounting principles. Financial information for these component units is reported separately from the financial information presented for the primary government.
- The St. Johns County School Board Leasing Corporation (Leasing Corporation), although also a legally separate entity, was formed to facilitate financing for the acquisition of facilities and equipment for the District. Due to the substantive economic relationship between the District and the Leasing Corporation, the Leasing Corporation has been included as an integral part of the primary government.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of the broad categories discussed below.

Governmental Funds: Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing a government's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long term impact of the government's near term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund; Debt Service – Other Debt Service Fund; Capital Projects – Sections 1011.14/1011.15 Loan Fund; Capital Projects – Local Capital Improvement Fund; and Capital Projects – Other Capital Projects Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. A budgetary comparison schedule is provided in the required supplementary information for the General Fund to demonstrate compliance with its budget.

Proprietary Funds: Proprietary funds may be established to account for activities in which a fee is charged for services. Internal Service Funds are used to accumulate and allocate costs internally among the District's various functions. The District used its Internal Service Funds to account for its self-insurance programs, which includes group medical, dental, and vision coverages, and its workers' compensation program. The District's Internal Service Funds are included within governmental activities in the government-wide financial statements because the services predominantly benefit the District's governmental activities.

Fiduciary Funds: Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as school and student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes.

The District uses agency funds to account for resources held for student activities and groups.

Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's net pension liability and its progress in funding its obligation to provide other postemployment benefits to its employees.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position over time may serve as a useful indicator of a government's financial health. The following is a summary of the District's net position as of June 30, 2020, compared to net position as of June 30, 2019:

	Net Position, End of Year	
	Governmental	
	Activities	
	6/30/20	6/30/19

Total Net Position	\$ 659,491,872	\$ 598,762,322

The largest portion of the District's net position is investment in capital assets (e.g., land, buildings, furniture, fixtures, and equipment), less any related debt still outstanding. The District uses these capital assets to provide education and related services to the students of St. Johns County, Florida; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, the resources used to repay the debt must be provided from other sources, since the capital assets cannot be used to liquidate these liabilities.

The restricted portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The District's deficit unrestricted net position was the result, in part, of accruing long-term liabilities of \$33,149,551 in compensated absences payable; \$212,334,986

in net pension liability; and \$26,203,755 in other postemployment benefits payable. These long-term liabilities are funded on a pay-as-you-go basis.

The District's total net position increased by \$60,729,550 during the 2019-20 fiscal year. This increase mainly represents the degree to which ongoing revenues have exceeded ongoing expenses. Details of the revenues and expenses composing the increase are as follows:

Governmental Activities Revenue by Source – Statement of Activities

Governmental Activities
Expenses by Major Function – Statement of Activities

The majority of the District's revenues for current operations are provided through the State's Florida Education Finance Program (FEFP), State categorical educational programs, Federal grants, and local property taxes. These revenues, for the most part, are included in the general revenues, which provide approximately 86 percent of total revenues, whereas program revenues provide approximately 14 percent. The largest portion of program revenues (95 percent) is from facilities acquisition and construction, food services, central services, student transportation services, and community service activities.

The FEFP formula is used to allocate State revenue sources for current District operations and, utilizing student enrollment data, is designed to maintain equity in funding across all Florida school districts considering funding ability based on the local property tax base. Student full-time equivalent (FTE) enrollment increased by 1,936 students, from 41,119 in the 2018-19 fiscal year to 43,055 in the 2019-20 fiscal year. The District experienced an increase in grants and contributions not restricted to specific programs of \$12,532,799, or 7 percent, as compared to the prior fiscal year, mainly because of an increase in FEFP funding due to student growth.

Instructional activities represent the majority of the District's expenses, representing approximately 52 percent of total expenses of governmental activities for both the 2019-20 and 2018-19 fiscal years. Instruction expenses increased by \$22,295,870, or 10 percent, mainly as a result of hiring additional teachers to address the increase in student enrollment and salary increases. Overall, total expenses increased \$40,631,574, or 10 percent, as compared to total revenues, which increased \$44,167,582, or 9 percent. The increase in total expenses is mainly attributable to an increase in salaries and benefits. The increase in total revenues is mainly attributable to FEFP funding, one-half cent local sales tax receipts, property taxes, and impact fees.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. Specifically, unassigned fund balance may serve as a useful measure of a government's net resources available for discretionary use as it represents the portion of fund balance that has not been limited to a particular purpose by an external party, the District, or a group or individual delegated authority by the Board to assign resources for particular purposes.

As of June 30, 2020, the District's governmental funds reported combined ending fund balances of \$322,250,743, or an increase of \$110,909,132 in comparison with the prior fiscal year. The fund balance increase is mainly attributable to the Capital Projects – Other Capital Projects Fund.

Approximately 0.1 percent of total fund balance, or \$283,454, is unassigned, which is available for spending at the District's discretion. In comparison to last year, this represents a \$7,776,525 decrease which is mainly due to the District assigning \$6,141,949 for personal protection equipment and other needs for the 2020-21 fiscal year related to the COVID-19 pandemic. The governmental fund balance can be broken down as follows: \$2,485,250 as nonspendable, \$265,360,461 as restricted, \$10,366,434 as committed, and \$43,755,144 as assigned.

Fund Balance	2020	2019	Increase (Decrease)	Percentage Change
Major Governmental Funds:				
General Fund	\$ 64,645,582	\$ 62,832,085	\$ 1,813,497	2.89%

Other Governmental Fund (nonmajor)	15,616,631	15,013,626	603,005	4.02%
Total Fund Balances	<u>\$ 322,250,743</u>	<u>\$ 211,341,611</u>	<u>\$ 110,909,132</u>	<u>52.48%</u>

Major Governmental Funds

The General Fund is the District's chief operating fund. At the end of the current fiscal year, unassigned fund balance was \$6,206,894; assigned fund balance was \$43,755,144; and the total fund balance was \$64,645,582. The District's General Fund's total fund balance for the 2019-20 fiscal year increased by \$1,813,497, or 3 percent, as compared to the prior year.

Key factors for understanding this increase are as follows:

- Total revenues increased by \$18,461,772, or 6 percent, mainly from an increase in property taxes and State funding related to increases in enrollment.
- Total expenditures increased by \$24,107,819, or 7 percent, due mainly to increased salary and benefit costs, which was offset by costs associated with the reduction of administrative staff and delaying filling vacant positions.
- Transfers in were comparable to prior year.

The Debt Service – Other Debt Service Fund is used to account for financial resources used to pay debt service principal, interest, and related costs for the certificates of participation and sales tax revenue bonds. For the 2019-20 fiscal year, the total fund balance increased by \$4,318,002 in the current fiscal year to \$9,205,197, at June 30, 2020.

The Capital Projects – Sections 1011.14/1011.15 Loan Fund is used to account for the financial resources generated by the District's Revenue Anticipation Note, Series 2018, that was undertaken

for the acquisition, construction, installation, and equipping of various capital improvements related to educational facilities, including, but not limited to, the renovation and expansion of Mill Creek Elementary School to Mill Creek Academy, a K-8 school. At June 30, 2020, this fund had a deficit fund balance of \$5,913,540. Additional information related to this deficit can be found in Note II to the financial statements.

The Capital Projects – Local Capital Improvement Fund is used to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation, and remodeling projects. The total fund balance increased by \$286,770 in the current fiscal year to \$33,244,245, at June 30, 2020.

The Capital Projects – Other Capital Projects Fund is mainly used to account for the financial resources received from certificates of participation proceeds; sales tax revenue bond proceeds; half-cent local sales tax receipts; local impact fees; and other miscellaneous sources to be used for educational capital outlay needs, including new construction, renovation, and remodeling projects. The total fund balance increased by \$101,998,221 to \$205,452,628, at June 30, 2020. This increase is mainly due to the issuance of Certificates of Participation, Series 2019A, dated November 8, 2019, with proceeds from the sale totaling \$102,456,515.

GENERAL FUND BUDGETARY HIGHLIGHTS

Over the course of the fiscal year, the District amended its budget to address unanticipated changes in revenues and expenditures. Differences between the General Fund original budget and the final amended budget were not significant for either revenues or expenditures. Projected revenues increased by \$9,603,944 or 3 percent (\$335,411,940 to \$345,015,884) and projected expenditures increased by \$30,640,256 or 9 percent (\$354,804,967 to \$385,445,223).

Actual General Fund revenues (\$349,893,755) were \$4,877,871 or 1 percent more than final budgeted amounts, and actual expenditures (\$353,893,204) were \$31,552,019 or 8 percent less than anticipated. The District continuously reviews cost saving measures and incremental increases in expenditures to avoid budget shortfall. The variance between the General Fund's budgeted and actual expenditures is a reflection of the District's practice to fully appropriate all potential obligations. The actual ending fund balance exceeded the estimated fund balance in the final budget by \$35,975,972. Positive budget balances include amounts assigned for budget shortfalls and other District and local programs and services.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2020**

Net Change in Fund Balances - Governmental Funds **\$ 110,909,132**

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their useful lives as depreciation expense. This is the amount of capital outlays and other capital outlay adjustments, in excess of depreciation expense in the current period:

Capital Outlay Expenditures	\$ 46,619,892	
Depreciation Expense	(23,080,626)	
Other Donations and Adjustments	<u>25,720,525</u>	49,259,791

Issuing long-term bonded debt is an other financing source in the governmental funds, but issuing new debt increases long-term liabilities in the statement of net position. Refunding debt is an expenditure in the governmental funds, but decreases liabilities in the statement of net position. This is the amount of long-term debt that was issued and refunded during the current fiscal year:

Certificates of Participation	(102,456,515)	
State Board of Education Refunding Bonds Issued	(444,000)	
State Board of Education Bonds Defeased	<u>530,000</u>	(102,370,515)

Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. The following details the amount of long-term debt principal repaid in the current period:

Certificates of Participation Payable	12,890,000	
Bonds Payable	<u>4,347,000</u>	17,237,000

Premiums on bond issues are amortized over the life of the debt in the statement of activities, but are reported as revenue in the governmental funds in the year debt is issued. This is the amount of the current amortization:

Certificates of Participation Payable	2,120,735	
Sales Tax Revenue Bonds Payable	<u>771,772</u>	2,892,507

Loss on Refundings is amortized over the life of the debt in the statement of activities, but is reported as expense in the governmental funds in the year debt is refunded. This is the amount of the loss and the current amortization: (524,837)

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds, expenditures are recognized based on the amounts actually paid for the compensated absences. This is the net amount of compensated absences (i.e., vacation and sick leave) earned in excess of the amount used in the current period: (3,482,599)

Pension benefit costs are recorded in the statement of activities under the full accrual basis of accounting, but are recorded in the governmental funds when contributions to the plan are paid. This is the net amount of pension benefits earned in excess of contributions made during the period:

FRS Pension Contribution	14,707,012	
HIS Pension Contribution	3,703,813	
FRS Pension Expense	(35,876,579)	
HIS Pension Expense	<u>(6,525,974)</u>	(23,991,728)

Other postemployment healthcare benefits costs are recorded in the statement of activities under the full accrual basis of accounting, but are not recorded in the governmental funds until paid. This is the net amount of contributions made in excess of other postemployment healthcare benefits earned during the period:

OPEB Contribution	2,262,194	
OPEB Expense	<u>(1,923,081)</u>	339,113

Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net expense of internal service funds is reported with governmental activities, except that depreciation is reported with governmental activities depreciation expense above:

NOTES TO FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities are normally supported by taxes, intergovernmental revenues, and other nonexchange transactions. The primary government is reported separately from certain legally separate component units for which the primary government is financially accountable. The District has no business-type activities.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the St. Johns County School District's (District) governmental activities. Direct expenses are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense is allocated to the various functions.

B. Reporting Entity

The St. Johns County District School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The District is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education (FDOE), and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The appointed Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of St. Johns County, Florida (County).

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading.

Based on the application of these criteria, the following component units are included within the District's reporting entity:

Blended Component Units. Blended component units are, in substance, part of the primary District's operations, even though they are legally separate entities. Thus, blended component units are appropriately presented as funds of the District. The St. Johns County School Board Leasing Corporation (Leasing Corporation) was formed to facilitate financing for the acquisition

of facilities and equipment as further discussed in a subsequent note. Due to the substantive economic relationship between the District and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.

Discretely Presented Component Units. The component units' column in the government-wide financial statements include the financial data of the District's other component units. A separate column is used to emphasize that they are legally separate from the District. The District's component units consist of the St. Johns County Education Foundation, Inc. D/B/A INK! (Foundation), and three charter schools.

The Foundation is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to receive, hold, invest and administer property, and to make expenditures to and for the benefit of public prekindergarten through twelfth grade education in St. Johns County. Because of the nature and significance of its relationship with the District, the Foundation is considered a component unit.

The charter schools consist of St. Augustine Public Montessori School, operated by St. Augustine Montessori Community, Inc., and the Therapeutic Learning Center Charter School along with St. Johns Community Campus Charter School, both of which are operated by The Arc of the St. Johns, Inc. The charter schools are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 1002.33, Florida Statutes. These charter schools operate under charters approved by their sponsor, the Board.

In accordance with a ruling by and requirement of the FDOE, the charter schools are included as component units of the District. According to the FDOE, the charter schools are fiscally dependent on the District for their tax levy and the majority of their budget and create a financial burden on the District because the charter schools' full-time equivalent student enrollment is the basis for funding. In addition, the charter schools are considered to be component units because they are considered misleading to exclude and because of the District's oversight responsibility.

The financial data reported on the accompanying statements was derived from the Foundation's and charter schools' audited financial statements for the fiscal year ended June 30, 2020. The audit reports are filed in the District's administrative offices at 40 Orange Street, St. Augustine, Florida 32084.

C. Basis of Presentation: Government-Wide Financial Statements

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds and internal service funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the

government-wide financial statements. The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided and used.

D. Basis of Presentation: Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary funds and blended component units. Separate statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as nonmajor funds.

The District reports the following major governmental funds:

- General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Debt Service – Other Debt Service Fund – to account for the accumulation of resources for, and the payment of, debt principal, interest, and related costs for the District's Certificates of Participation, the 2010 Qualified School Construction Bond (QSCB), and the 2016 District Sales Tax Revenue Bonds.
- Capital Projects – Section 1011.14/1011.15 Loan Fund – to account for the financial resources generated by the District's Revenue Anticipation Note, Series 2018, in the amount of \$15,100,000 borrowed on April 13, 2018, under the provisions of Section 1011.14, Florida Statutes, of which the proceeds are to be used for the acquisition, construction, installation, and equipping of various capital improvements related to educational facilities within the District, including, but not limited to, the renovation and expansion of Mill Creek Elementary to Mill Creek Academy, a K-8 school.
- Capital Projects – Local Capital Improvement Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including renovation and remodeling projects, motor vehicle purchases, and debt service payments.
- Capital Projects – Other Capital Projects Fund – to account mainly for the financial resources received from certificates of participation proceeds, sales tax revenue bond proceeds, one-half cent local sales tax receipts, local impact fees, and other miscellaneous sources to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, new and replacement equipment, and debt service payments.

Additionally, the District reports the following proprietary and fiduciary fund types:

- Internal Service Funds – to account for the District’s self-insured health and hospitalization programs, which includes medical, dental, and vision plans, and the District’s self-insured workers’ compensation program (for claims incurred prior to June 30, 2008).
- Agency Funds – to account for resources of the school internal funds, which are used to administer moneys collected at several schools in connection with school, student athletic, class, and club activities. These activities are excluded from the government-wide financial statements because the District cannot use these assets to finance its operations.

During the course of operations the District has activity between funds for various purposes. Any residual balances outstanding at fiscal year-end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, certain transfers between the funds included in governmental activities are eliminated in the preparation of the governmental-wide financial statements.

E. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized in the year for which they are levied. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the

expenditure is made. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Interest associated with the current fiscal period is considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Expenditures are generally recognized when the related fund liability is incurred, as under accrual accounting. However, debt service expenditures, claims and judgments, pension benefits, other postemployment benefits, and compensated absences, are only recorded when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt are reported as other financing sources. Allocations of cost, such as depreciation, are not recognized in governmental funds.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. The agency fund has no measurement focus but utilizes the accrual basis of accounting for reporting its assets and liabilities.

The Foundation is accounted for under the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred.

The charter schools are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities.

F. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position/Fund Balance

1. Cash and Cash Equivalents

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term liquid investments with original maturities of 3 months or less. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) in Florida PRIME and investments made locally with the Florida Public Assets for Liquidity Management (FL PALM), formerly known as the Florida Education Investment Trust Fund.

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes.

2. Investments

Investments consist of amounts placed in the SBA debt service accounts which are restricted for debt service purposes, amounts placed with the SBA for participation in the Florida PRIME investment pool created by Section 218.405, Florida Statutes, and amounts placed in FL PALM. These investment pools operate under investment guidelines established by Section 215.47, Florida Statutes.

The District's investments in Florida PRIME, which meets all of the necessary criteria to elect to measure their investments at amortized cost, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at amortized cost, which approximates fair value.

Investments made locally consist of amounts placed in the FL PALM, a qualifying external investment pool. These investments are reported at amortized cost, which approximates fair value.

Types and amounts of investments held at fiscal year-end are described in a subsequent note.

3. Restricted Cash and Cash Equivalents

Certain assets, held by a trustee in the name of the District, or invested by the District, in connection with certificates of participation financing arrangements, are classified as restricted cash and cash equivalents on the statement of net position because they are set aside for repayment of debt as required by applicable debt covenants; represent proceeds from the sale of certificates of participation; revenue from the one-half cent local sales tax receipts; or proceeds from the revenue anticipation note.

These assets consist of \$20,291,741 restricted for the repayment of certificates of participation principal and interest payable, of which \$16,065,419 is payable on July 1, 2020, and reported as current liabilities on the statement of net position; \$8,611,991 restricted for the repayment of QSCBs principal that is maintained in a sinking fund account; \$3,322,792 restricted for the repayment of sales tax revenue bonds principal and interest; \$3,847,761 of sales tax revenue bond cash restricted for the cost of construction and equipping a new K-8 school and a new elementary school; \$24,068,922 of one-half cent local sales tax receipts restricted for new construction, reconstruction and improvement of school facilities, including safety and security improvements and technology upgrades; \$3,430,784 revenue anticipation note cash restricted for capital improvements to educational facilities within the District, specifically the renovation and expansion of Mill Creek Elementary to Mill Creek Academy, a K-8 school; and \$87,194,391 related to the Certificates of Participation, Series 2019A, dated November 8, 2019, for the acquisition and construction of a new high school and the construction of a classroom wing at a new K-8 school.

4. Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption in the course of District operations. Inventories are stated at last invoice price, which approximates the first-in, first-out basis, except that United States Department of Agriculture donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food

Distribution. The costs of inventories are recorded as expenditures when used rather than when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

5. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000, except for improvements other than buildings which are defined as those costing more than \$250,000. Such assets are recorded at historical cost if purchased or constructed. Donated assets are recorded at acquisition value at the date of donation.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

Description	Estimated Lives
Improvements Other Than Buildings	10 - 40 years
Buildings and Fixed Equipment	10 - 50 years
Furniture, Fixtures, and Equipment	3 - 15 years
Motor Vehicles	5 - 10 years
Audio Visual Materials and Computer Software	5 years

Current year information relative to changes in capital assets is described in the **Changes in Capital Assets** note disclosure.

6. Pensions

The District participates in the Florida Retirement System (FRS). In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the FRS defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS and the HIS fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

The District's retirement plans and related amounts are described in a subsequent note.

7. Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Debt premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds and certificates of participation payable are reported net of the applicable premium or discount.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize debt premiums and discounts during the current period. The face amount of debt issued and premiums on debt issuances are reported as other financing sources, while discounts on debt issuances are reported as other financing uses.

Changes in long-term liabilities for the current year are reported in a subsequent note.

8. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until then. The District has three items that qualify for reporting in this category. The net carrying amount for loss on debt refunding reported in the government-wide statement of net position results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized, as a component of interest expense, over the shorter of the life of the refunded or refunding debt. Deferred outflows related to pensions and Other Postemployment Benefits (OPEB) are discussed in subsequent notes.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting in this category. The deferred inflows of resources related to pensions and OPEB are discussed in subsequent notes.

9. Net Position Flow Assumption

The District occasionally funds outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. To calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. Consequently, it is the District's policy

to consider restricted net position to have been depleted before unrestricted net position is applied.

10. Fund Balance Flow Assumptions

The District may fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). To calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

11. Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The District reports its governmental fund balances in the following categories:

Nonspendable Fund Balance. Nonspendable fund balance is the net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash. The District classifies its amounts reported as inventories and prepaid items as nonspendable.

Restricted Fund Balance. Restricted fund balance is the portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance. The District classifies most of its fund balances as restricted, other than those in the General Fund. In the General Fund, unspent State Required Carryover (Categorical) Programs and earmarked educational funding that is legally or otherwise restricted are reported as restricted fund balance.

Committed Fund Balance. The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution)

to remove or revise the limitation. The District has established an economic stabilization arrangement in Board Rule 7.01, *School District Budget System*, which provides that the Board shall commit an amount equal to 3 percent of its estimated revenue from the first Florida Education Finance Program calculation under a stabilization arrangement for the use in an emergency. The District classified the stabilization arrangement moneys as committed fund balance and defines the circumstances that constitute an emergency are non-routine in nature and specifically include the following:

- Failure to pay loans or debt service when due as a result of lack of funds;
- Failure to pay uncontested claims to creditors within 90 days due to lack of funds;
- Failure to transfer taxes, social security or retirement/benefits for employees; and
- Failure for one pay period to pay wages, salaries, or retirement benefits to employees.

At June 30, 2020, the stabilization balance was \$10,366,434.

Assigned Fund Balance. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. Board Rule 7.01 authorizes the Superintendent or Superintendent's designee to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Unassigned Fund Balance. The unassigned fund balance is the portion of fund balance that is the residual classification for the General Fund. The General Fund is the only fund that reports a positive unassigned fund balance amount. This balance represents amounts that have not been restricted, committed, or assigned for specific purposes.

G. Revenues and Expenditures/Expenses

1. Program Revenues

Amounts reported as program revenues include charges paid by the recipient of the goods or services offered by the program, and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than program revenues. Revenues that are not classified as program revenues are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

2. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the Florida Department of Education (FDOE) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the FDOE. The FDOE performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of 5 months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The FDOE may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the fiscal year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. SBE rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The FDOE generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the FDOE.

A schedule of revenue from State sources for the current fiscal year is presented in a subsequent note.

3. District Property Taxes

The Board is authorized by State law to levy property taxes for District school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the St. Johns County Property Appraiser, and property taxes are collected by the St. Johns County Tax Collector.

The Board adopted the 2019 tax levy on September 17, 2019. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of

personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the St. Johns County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current year are presented in a subsequent note.

4. Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

5. Sales Tax Revenue

On November 3, 2015, in a special referendum election, the citizens of St. Johns County authorized a half-cent sales surtax to fund the capital needs of the District, under the authority of Section 212.055(6), Florida Statutes. The sales surtax was effective beginning January 2016 and will continue through December 2025. Revenues will be used to fund critical needs of an increasing student population in St. Johns County as it relates to new construction, facility renovations, remodeling projects, technology, and security.

6. Educational Impact Fees

The County imposes an educational impact fee based on an ordinance adopted by the County Commission in 1987. This ordinance was most recently amended in April 2018 when Ordinance 2018-16 established, in part, revised rates to be collected. The educational impact fee is collected by the County for most new residential construction. The fees can only be used to acquire, construct, expand, and equip the educational sites and educational capital facilities necessitated by new development and to pay for certain collection and legal defense costs.

7. Concurrency Proportionate Share Mitigation

Pursuant to Section 163.3180(6)(a), Florida Statutes, the District entered into an interlocal agreement with the County and three local municipalities effective October 3, 2008, to implement school concurrency for the purpose of ensuring adequate public school facilities are available to serve the residents of new residential developments. Concurrency requires that necessary infrastructure be planned for and available at the time of development

impacts and requires an infrastructure review to determine whether adequate school capacity either already exists, will be in place, or under construction within three years. School capacity is provided through proportionate share mitigation from developers in the form of school construction, land contributions or cash payments for school construction or land acquisition. The District has six concurrency service areas based on adopted Board high school attendance boundaries. If there is not sufficient capacity in the affected concurrency service area, or the adjacent concurrency service area, and the developer elects to proceed with the project, proportionate share mitigation will be required to address the impacts of the proposed development. Developers receive a credit toward the payment of local educational impact fees based on the amount of proportionate share mitigation provided, and the proportionate share mitigation revenue is recognized when payment is made to the District. The County or municipality then approves final construction plans.

8. Compensated Absences

In the government-wide financial statements, compensated absences (i.e., paid absences for employee vacation leave and sick leave) are accrued as liabilities using the vesting method. Under this method, the liability amount is estimated based on the accumulated leave at fiscal year-end for employees who are currently eligible, or expected to become eligible, to receive termination payments. A liability for these amounts is reported in the governmental fund financial statements only if it has matured, such as for occurrences of employee resignations and retirements. The liability for compensated absences includes salary related benefits, where applicable.

9. Proprietary Funds Operating and Nonoperating Revenues and Expenses

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for employee health insurance premiums and workers' compensation insurance. Operating expenses include insurance claims and excess coverage premiums. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Deficit Net Position in Major Capital Projects Fund

The following major capital projects fund has a deficit net position balance at June 30, 2020:

Fund	Beginning Net Position	Change in Net Position	Ending Net Position
Capital Projects - Sections 1011.14/1011.15 Loan	\$ (7,803,177)	\$ 1,889,637	\$ (5,913,540)

The deficit reported in the Capital Projects – Section 1011.14/1011.15 Loan Fund is attributed to the reported liability of \$9,356,000 generated by the issuance of Revenue Anticipation Note, Series 2018. These proceeds are for the acquisition, construction, installation and equipping of various capital improvements related to educational facilities, including, but not limited to, the renovation and expansion of Mill Creek Elementary School to Mill Creek Academy, a K-8 school. The deficit will be eliminated during the subsequent years as the pledged proceeds are received and the note is paid in full.

III. DETAILED NOTES ON ALL ACTIVITIES AND FUNDS

A. Cash Deposits with Financial Institutions

Custodial Credit Risk-Deposits

In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to the District. The District does not have a policy for custodial credit risk. All bank balances of the District are fully insured or collateralized as required by Chapter 280, Florida Statutes.

Cash balances from all funds are combined and invested to the extent available. Earnings are allocated monthly to each fund based on average daily balances.

B. Investments

Fair Value Measurement

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

The District's investments at June 30, 2020, are reported as follows:

Investments by Fair Value Level	Total	Fair Value Measurement Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
SBA - Debt Service Accounts	\$ 54,184	\$ 54,184	\$ -	\$ -
Investments Reported at Amortized Cost				
Florida PRIME	261,529,917			
FL PALM	5,384,781			
Total Investments Reported at Amortized Cost	266,914,698			
Total Investments	\$ 266,968,882			

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District's investment policy authorizes the investment of temporarily idle funds to earn the maximum return for the period available. The policy also indicates a high priority shall be placed on the safety and liquidity of the funds. The trust agreement in connection with certificates of participation financing arrangements does not specifically limit investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

Florida PRIME and FL PALM use a weighted-average days to maturity (WAM). A portfolio's WAM reflects the average maturity in days, based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

The District's investments at June 30, 2020, have the following maturities:

Investments	Maturities	Fair Value
SBA		
Florida PRIME ^{(1) (2) (3) (4)}	53 Day Average	\$ 261,529,917
Debt Service Accounts	6 months	54,184
FL PALM ⁽¹⁾	53 Day Average	5,384,781
		\$ 266,968,882

⁽¹⁾ Investments with original maturities of three months or less are considered cash equivalents for financial reporting purposes.

⁽²⁾ Investments totaling \$100,032,704 are held under a trust agreement in connection with the Certificates of Participation, Series 2010 (Qualified School Construction Bond), 2013, 2015, and 2019A financing agreements, and are reported as restricted cash equivalents for financial reporting purposes.

⁽³⁾ Investments totaling \$31,239,475 related to receipt of the one-half cent local sales tax and the sales tax revenue bonds are reported as restricted cash equivalents for financial reporting purposes.

⁽⁴⁾ Investments totaling \$3,430,784 related to the proceeds of the District's Revenue Anticipation Note, borrowed on April 13, 2018, are reported as restricted cash equivalents for financial reporting purposes.

For Florida PRIME, Chapter 218.409(8)(a), Florida Statutes, states that “the principal, and any part thereof, of each account constituting the trust fund is subject to payment at any time from the moneys in the trust funds. However, the Executive Director may, in good faith, on the occurrence of an event that has a material impact on liquidity or operations of the trust funds, for 48 hours limit contributions to or withdrawals from the trust fund to ensure that the Board [State Board of Administration] can invest moneys entrusted to it in exercising its fiduciary responsibility. Such action must be immediately disclosed to all participants, the Trustee, the Joint Legislative Auditing Committee, the Investment Advisory Council, and the Participant Local Government Advisory Council. The Trustees shall convene an emergency meeting as soon as practicable from the time the Executive Director has instituted such measures and review the necessity of those measures. If the Trustees are unable to convene an emergency meeting before the expiration of the 48-hour moratorium on contributions and withdrawals, the moratorium may be extended by the Executive Director until the Trustees are able to meet to review the necessity for the moratorium. If the Trustees agree with such measures, the Trustees shall vote to continue the measures for up to an additional 15 days. The Trustees must convene and vote to continue any such measures before the expiration of the time limit set, but in no case may the time limit set by the Trustees exceed 15 days.” As of June 30, 2020, there were no redemption fees or maximum transaction amounts, or any other requirements that serve to limit a participant’s daily access to 100 percent of their account value.

Credit Risk

Credit risk is the risk that an issuer or other counterpart to an investment will not fulfill its obligations. Section 218.415(17), Florida Statutes, limits investments to the SBA’s Florida PRIME, or any other intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act as provided in Section 163.01, Florida Statutes; Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency; interest-bearing time deposits in qualified public depositories, as defined in Section 280.02, Florida Statutes; and direct obligations of the United States Treasury. The District’s investment policy does not further limit its investment choices.

The District’s investment in the FL PALM and Florida PRIME is rated AAAm by Standard & Poor’s.

The District’s investments in the SBA Debt Service accounts are to provide for debt service payments on bond debt issued by the SBE for the benefit of the District. The District relies on policies developed by the SBA for managing interest rate risk and credit risk for this account. Disclosures for the Debt Service Accounts are included in the notes to financial statements of the State’s Comprehensive Annual Financial Report.

C. Due From Other Agencies

The \$8,923,137 reported as due from other agencies primarily consists of \$3,383,630 due from the Florida Department of Revenue related to the one-half cent local sales tax; \$3,232,940 due from the FDOE for reimbursement of Federal and State grant expenditures; and \$1,271,458 due from the St. Johns County Board of County Commissioners for the collection of educational impact fees.

E. Retirement Plans

1. Florida Retirement System (FRS) – Defined Benefit Pension Plans

General Information about the FRS

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree Health Insurance Subsidy (HIS) Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida

Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature.

The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site www.dms.myflorida.com.

The District's FRS and HIS pension expense totaled \$42,402,553 for the fiscal year ended June 30, 2020.

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with DROP for eligible employees. The general classes of membership are as follows:

- *Regular* – Members of the FRS who do not qualify for membership in the other classes.
- *Elected County Officers* – Members who hold specified elective offices in local government.
- *Senior Management Service* – Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP

participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

Class, Initial Enrollment, and Retirement Age/Years of Service	Percent Value
<i>Regular Class members initially enrolled before July 1, 2011</i>	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
<i>Regular Class members initially enrolled on or after July 1, 2011</i>	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
<i>Elected County Officers</i>	3.00
<i>Senior Management Service Class</i>	2.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2019-20 fiscal year were as follows:

<u>Class</u>	<u>Percent of Gross Salary</u>	
	<u>Employee</u>	<u>Employer ⁽¹⁾</u>
FRS, Regular	3.00	8.47
FRS, Elected County Officers	3.00	48.82
FRS, Senior Management Service	3.00	25.41
DROP - Applicable to		
Members from All of the Above Classes	0.00	14.60
FRS, Reemployed Retiree	(2)	(2)

⁽¹⁾ Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates (other than for DROP participants) include 0.06 percent for administrative costs of the Investment Plan.

⁽²⁾ Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions to the Plan totaled \$14,707,012 for the fiscal year ended June 30, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2020, the District reported a liability of \$143,261,940 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2019. The District's proportionate share of the net pension liability was based on the District's 2018-19 fiscal year contributions relative to the total 2018-19 fiscal year contributions of all participating members. At June 30, 2019, the District's proportionate share was 0.415992253 percent, which was an increase of 0.000094661 from its proportionate share measured as of June 30, 2018.

For the fiscal year ended June 30, 2020, the District recognized the Plan pension expense of \$35,876,579. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 8,497,275	\$ 88,907
Change of assumptions	36,795,830	-
Net difference between projected and actual earnings on FRS pension plan investments	-	7,925,998
Changes in proportion and differences between District FRS contributions and proportionate share of contributions	2,555,352	1,027,619
District FRS contributions subsequent to the measurement date	14,707,012	-
Total	\$ 62,555,469	\$ 9,042,524

The deferred outflows of resources related to pensions resulting from District contributions to the Plan subsequent to the measurement date, totaling \$14,707,012 will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30	Amount
2021	\$ 14,012,838
2022	4,156,534
2023	10,064,504
2024	7,762,388
2025	2,213,874
Thereafter	595,795
Total	\$ 38,805,933

Actuarial Assumptions. The total pension liability in the July 1, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary increases	3.25 percent, average, including inflation
Investment rate of return	6.90 percent, net of pension plan investment expense, including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2019, valuation were based on the results of an actuarial experience study for the period July 1, 2013, through June 30, 2018.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption.

The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation ⁽¹⁾	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1%	3.3%	3.3%	1.2%
Fixed Income	18%	4.1%	4.1%	3.5%
Global Equity	54%	8.0%	6.8%	16.5%
Real Estate (Property)	10%	6.7%	6.1%	11.7%
Private Equity	11%	11.2%	8.4%	25.8%
Strategic Investments	6%	5.9%	5.7%	6.7%
Total	100%			
Assumed inflation - Mean			2.6%	1.7%

⁽¹⁾ As outlined in the Plan's investment policy

Discount Rate. The discount rate used to measure the total pension liability was 6.9 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate used in the 2019 valuation was updated from 7.0 percent to 6.9 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 6.9 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using

a discount rate that is 1 percentage point lower (5.9 percent) or 1 percentage point higher (7.9 percent) than the current rate:

	1% Decrease (5.9%)	Current Discount Rate (6.9%)	1% Increase (7.9%)
District's proportionate share of the net pension liability	\$ 247,652,189	\$ 143,261,940	\$ 56,078,425

Pension Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2020, the District reported a payable of \$2,238,871 for the outstanding amount of contributions to the Plan required for the fiscal year ended June 30, 2020.

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided. For the fiscal year ended June 30, 2020, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Federal Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2020, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$3,703,813 for the fiscal year ended June 30, 2020.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2020, the District reported a net pension liability of \$69,073,046 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the pension plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2019. The District's proportionate share of the net pension liability was based on the District's 2018-19 fiscal year contributions relative to the total 2018-19 fiscal year contributions of all participating members. At June 30, 2019, the District's proportionate share was 0.617329969 percent, which was an increase of 0.000248375 from its proportionate share measured as of June 30, 2018.

For the fiscal year ended June 30, 2020, the District recognized the HIS Plan pension expense of \$6,525,974. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

<u>Description</u>	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between expected and actual experience	\$ 838,969	\$ 84,578
Change of assumptions	7,998,006	5,645,468
Net difference between projected and actual earnings on HIS pension plan investments	44,572	-
Changes in proportion and differences between District HIS contributions and proportionate share of contributions	4,138,536	-
District HIS contributions subsequent to the measurement date	3,703,813	-
Total	<u><u>\$ 16,723,896</u></u>	<u><u>\$ 5,730,046</u></u>

The deferred outflows of resources related to pensions resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$3,703,813 will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30	Amount
2021	\$ 2,571,343
2022	2,031,340
2023	1,214,929
2024	62,803
2025	479,905
Thereafter	929,717
Total	\$ 7,290,037

Actuarial Assumptions. The total pension liability in the July 1, 2019, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.60 percent
Salary increases	3.25 percent, average, including inflation
Municipal bond rate	3.50 percent

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

While an experience study had not been completed for the HIS Plan, the actuarial assumptions that determined the total pension liability for the HIS Plan were based on certain results of the most recent experience study for the FRS Plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.50 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate used in the 2019 valuation was updated from 3.87 percent to 3.50 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.50 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using

a discount rate that is 1 percentage point lower (2.50 percent) or 1 percentage point higher (4.50 percent) than the current rate:

	1% Decrease (2.50%)	Current Discount Rate (3.50%)	1% Increase (4.50%)
District's proportionate share of the net pension liability	\$ 78,850,423	\$ 69,073,046	\$ 60,929,598

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2020, the District reported a payable of \$58,968 for the outstanding amount of contributions to the HIS Plan required for the fiscal year ended June 30, 2020.

2. FRS – Defined Contribution Pension Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of plan members.

Allocations to the investment member's accounts during the 2019-20 fiscal year were as follows:

Class	Percent of Gross Compensation
FRS, Regular	6.30
FRS, Elected County Officers	11.34
FRS, Senior Management Service	7.67

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings, regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Non-vested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5-year period, the employee will regain control over their account. If the employee does not return within the 5-year period, the employee will forfeit the accumulated account balance. For the fiscal year ended June 30, 2020, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$3,559,563 for the fiscal year ended June 30, 2020.

Payables to the Investment Plan. At June 30, 2020, the District reported a payable of \$546,680 for the outstanding amount of contributions to the Investment Plan required for the fiscal year ended June 30, 2020.

F. Other Postemployment Benefit Plan – OPEB Plan

The District follows GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*, for reporting the employers' OPEB Plan liability.

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District are eligible to participate in the District's health and hospitalization plan for medical, prescription drug, dental, and vision coverage. Retirees and their eligible dependents shall be offered the same health and hospitalization insurance coverage as is offered to active employees at a premium cost of no more than the premium cost applicable to active employees. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because retiree healthcare costs are generally greater than active employee healthcare costs. The District does not offer any explicit subsidies for retiree coverage. Retirees are assumed to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The OPEB Plan does not issue a stand-alone report and is not included in the report of a public employee retirement system or entity. The OPEB Plan contribution requirements and benefit terms of the District and the OPEB Plan members are established and may be amended through recommendations of the Insurance Committee and action from the Board. No assets are accumulated in a trust that meets all of the criteria in GASB Statement No. 75, paragraph 4.

Employees Covered by Benefit Terms. At June 30, 2019, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently Receiving Benefits	260
Inactive Employees Entitled to But Not Yet Receiving Benefits	-
Active Employees	4,778
Total	<u>5,038</u>

Total OPEB Liability. The District's total OPEB liability of \$26,203,755 was measured as of June 30, 2019, and was determined by an actuarial valuation as of June 30, 2019.

Actuarial Assumptions and Other Inputs. The total OPEB liability was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25 percent
Salary Increases	3.60 percent to 7.80 percent, including inflation as used in the July 1, 2019 actuarial valuation of the Florida Retirement System
Discount Rate	3.62 percent at the beginning of the measurement period to 3.13 percent as of June 30, 2019
Healthcare Cost Trend Rates	6.50 percent decreasing to an ultimate trend rate of 3.99 percent plus 0.28 percent increase for excise tax

The discount rate was based on the Bond Buyer General Obligation 20-year Municipal Bond Index.

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

The demographic actuarial assumptions for retirement, disability incidence, and withdrawal used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the period January 1, 2013, through December 31, 2018, adopted by the FRS.

The remaining actuarial assumptions (e.g., initial per capita costs, health care cost trends, rate of plan participation, rates of plan election, et.) used in the June 30, 2019 valuation were based on a review of recent plan experience done concurrently with the June 30, 2019 valuation.

G. Special Termination Benefits

The Board provides for the payment of special retirement benefits to qualifying employees as follows:

The Board provides for the payment of a special termination incentive to administrative, managerial, and confidential employees hired prior to January 2, 2002. The incentive is equal to 1 percent of final salary times the number of years of St. Johns County District School Board service or \$10,000, whichever is greater, provided that the employee retires by the end of the first fiscal year of eligibility. Employees hired on or after January 2, 2002, are not eligible for the retirement incentive, and employees hired before that date and reclassified from another category are eligible for an incentive equal to 1 percent of final salary times the number of years of St. Johns County District School Board service or \$10,000, whichever is less, provided that the employee retires by the end of the first fiscal year of eligibility.

The Board's collective bargaining agreement with St. Johns Education Association provides for the payment of a special retirement incentive of 30 percent of final salary or \$10,000, whichever is greater, for instructional employees who retire with a minimum of 10 years of service, provided that the employee retires by the end of the first fiscal year of eligibility.

The Board's collective bargaining agreement with the St. Johns Educational Support Professional Association provides for the payment of special retirement benefits to noninstructional employees upon retirement of \$3,000 for employees with 15 years of services and an additional \$250 for each year of service beyond 15 years, up to a maximum of 30 years of service.

In addition to payments for accrued leave and regular termination benefits, the District reported expenditures for special termination benefits, totaling \$779,890 during the 2019-20 fiscal year.

H. Construction and Other Significant Commitments

Encumbrances. Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current year are carried forward and the next year's appropriations are likewise encumbered.

The following is a schedule of encumbrances at June 30, 2020. The major Debt Service – Other Debt Service Fund had no encumbrances at June 30, 2020.

I. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District has established self-insurance programs for its employee health and hospitalization and its workers' compensation liability coverage. For workers' compensation and most of its other insurance coverage, effective July 1, 2008, the District participates in a group self-insurance program administered by the Florida School Boards Association, Inc. The District's covered risks relating to property protection, general liability, automobile liability, workers' compensation, money and securities, employee fidelity and faithful performance, boiler and machinery, and other coverage deemed necessary by the members are included in the group program.

Section 1001.42(12)(k), Florida Statutes, provides the authority for the District to enter into such a risk management program. The program is self-sustaining through member assessments (premiums), and purchases coverage through commercial companies for claims in excess of specified amounts. The Board of Directors for the program is composed of one board member from each participating district and a superintendent and district-level business officer selected from one of the participating districts.

The District's health and hospitalization self-insurance program, which includes medical, dental, and vision coverage, is being provided on a self-insured basis up to specified limits. The District has entered into an agreement with an insurance company to provide specific excess coverage for claims amounts above \$400,000 per insured per year, and laser coverage on two members for \$750,000 and \$1,200,000 per year. The program's administrator has been approved by the Florida Office of Insurance Regulation. The funds for these coverages were established in accordance with Chapter 112, Florida Statutes. The program is administered through the Internal Service Funds.

A liability in the amount of \$2,599,605 was actuarially determined for estimated insurance claims payable for claims incurred but not reported (IBNR) for health and hospitalization coverage.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insured health and hospitalization program:

Fiscal Year	Balance at Beginning of Fiscal Year	Current-Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year-End
2018-19	\$ 2,949,444	\$ 40,654,931	\$ (40,796,114)	\$ 2,808,261
2019-20	2,808,261	42,099,946	(42,308,602)	2,599,605

The Board established a self-insurance program to provide workers' compensation coverage for its employees for claims incurred prior to June 30, 2008. The District's liability was limited by excess insurance to \$150,000 or \$250,000 per occurrence, depending on the year of occurrence, and by aggregate excess insurance per plan year, ranging from \$1,000,000 to \$3,211,800, except for the 2004-05 plan year, for which aggregate excess insurance was not purchased. For claims incurred on or after July 1, 2008, the District's workers' compensation coverage is administered by the Florida School Boards Association program.

A liability in the amount of \$253,062 was actuarially determined for estimated insurance claims payable for claims IBNR for workers' compensation coverage.

The following schedule represents the changes in the liability for the past two fiscal years for the District's workers' compensation program:

Fiscal Year	Balance at Beginning of Fiscal Year	Current-Year Claims and Changes in Estimates	Claims Payments	Balance at Fiscal Year-End
2018-19	\$ 250,035	\$ 35,358	\$ (27,161)	\$ 258,232
2019-20	258,232	12,228	(17,398)	253,062

Settled claims resulting from these risks have not exceeded commercial coverage in any of the past three fiscal years.

These obligations may be extended from year to year, with the consent of the lender, for a period not to exceed four years, for a total of five years, including the initial year of the loan. ⁽¹⁾Series 2010-QSCBs (Qualified School Construction Bonds) is primarily principal only bonds, repaid by the District. The QSCBs were issued as direct subsidy bonds, whereby the District pays the full amount of taxable interest to the lender and then files for a direct cash subsidy payment from the United States Treasury. Beginning with the 2013-14 fiscal year, the direct subsidy interest payments from the United States Treasury were reduced by 8.7 percent, from 4.94 percent to 4.51 percent.

The District entered into a master financing arrangement on November 15, 2003, characterized as a lease-purchase agreement, with the St. Johns County School Board Leasing Corporation (Leasing Corporation) whereby the District secured financing of various educational facilities. The financing was accomplished through the issuance of Certificates of Participation by the Leasing Corporation to third-party investors, to be repaid from the proceeds of rents paid by the District.

As a condition of the financing arrangement, the District gave a ground lease on District properties to the Leasing Corporation, with a rental fee of \$10 per year. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the leases and to provide for the rent payments through to term, the District may be required to surrender the properties included under the Ground Lease Agreements for the benefit of the securers of the certificates for the remaining term of the ground leases or until the certificates are paid in full.

The QSCBs were issued through the ARRA on September 20, 2010. For the Series 2010-QSCB, the principal portion of the basic lease payment, \$16,000,000, is due on September 1, 2027. The sinking fund payments are due annually on

September 1, commencing on September 1, 2011. The Series 2010-QSCB sinking fund payments made by the District will be deposited by the Trustee into the Series 2010 Sinking Fund Account pursuant to the Trust Agreement. Such funds will be invested in permitted investments in accordance with the Trust Agreement. The Board may offset sinking fund payments with the interest earnings on amounts in the Sinking Fund Account and must make supplemental payments to the Sinking Fund Account to cure any deficiency between the amount on deposit and the required scheduled amount. Sinking fund payments on deposit in the Sinking Fund Account will be retained therein until transferred to the Series 2010 Principal Account and applied to the payment of the \$16,000,000 principal component due on the Series 2010-QSCB Certificates at maturity (September 1, 2027) or upon earlier payment. The QSCBs are primarily issued as principal only and provide for a direct cash subsidy payment from the United States Treasury for the interest. Beginning with the 2013-14 fiscal year, the direct subsidy interest payments from the United States Treasury was reduced by 8.7 percent, from 4.94 percent to 4.51 percent.

The District issued Certificates of Participation, Series 2019A, dated November 8, 2019, in the amount of \$84,095,000. The proceeds will be used to finance the acquisition and construction of a new High School, "HHH", which is located on International Golf Parkway in northwest St. Johns County and will accommodate approximately 2,134 students, as well as the construction of a classroom wing at a new K-8 School, "MM", which is located on Pine Island Road in northeast St. Johns County and will accommodate approximately 1,496 students. The Certificates of Participation were issued with a true interest cost of 2.683 percent.

State School Bonds. These bonds are issued by the SBE on behalf of the District. The bonds mature serially, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investments of Debt Service

Fund resources, and compliance with reserve requirements are administered by the SBE and the SBA.

District Sales Tax Revenue Bonds. These bonds are generally referred to as Sales Tax Revenue Bonds, Series 2016, and are authorized by Chapter 212, 1001, and 1013, Florida Statutes, and a resolution of the District School Board dated January 12, 2016, authorizing the bond issue. These bonds are secured by a one-half cent local sales surtax, authorized on November 3, 2015, by majority voter approval of a District School Board resolution dated June 30, 2015, proposing the discretionary sales surtax. As provided by the bond resolution, the District is not required to maintain a reserve account.

The District has pledged a total of \$33,434,125 of sales surtax revenue in connection with the Sales Tax Revenue Bonds, Series 2016, described above. During the 2019-20 fiscal year, the District recognized sales surtax revenue totaling \$21,472,239 and expended \$5,590,875 (26 percent) of these revenues for debt service directly collateralized by these revenues. The pledged revenues are committed until final maturity of the debt on October 1, 2025. Approximately 29 percent of this revenue stream has been pledged in connection with debt service on the revenue bonds, and \$4,980,250 is restricted for future debt service requirements as of June 30, 2020.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

I. BUDGETARY BASIS OF ACCOUNTING

The Board follows procedures established by State statutes and SBE rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and SBE rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, student personnel services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.
- Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent year's appropriations.

II. SCHEDULE OF OTHER POSTEMPLOYMENT BENEFIT (OPEB) PLAN LIABILITY AND SCHEDULE OF CHANGE IN OPEB PLAN LIABILITY

- Changes in assumptions and other inputs include the change in the discount rate from 3.62 percent as of the beginning of the measurement period to 3.13 percent as of the end of the measurement period. This change is reflected in the Schedule of Changes in Total OPEB Plan Liability.
- There are no assets accumulated in a trust to pay related benefits.

III. SCHEDULE OF NET POSITION LIABILITY AND SCHEDULE OF CONTRIBUTIONS – FLORIDA RETIREMENT SYSTEM (FRS) DEFINED BENEFIT PENSION PLAN

Changes in assumptions. The long-term expected rate of return was decreased from 7.00 percent to 6.90 percent.

IV. SCHEDULE OF NET PENSION LIABILITY AND SCHEDULE OF CONTRIBUTIONS – HEALTH INSURANCE SUBSIDY PENSION PLAN

Changes in assumptions. The municipal bond rate used to determine total pension liability was decreased from 3.87 percent to 3.50 percent.

DISTRICT SCHOOL BOARD OF ST. JOHNS COUNTY
Notes to Schedule 5
Supplementary Schedule of
Federal Financial Assistant Program Expenditures
For the Fiscal Year Ended June 30, 2020

I. BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the Federal award activity of the St. Johns County School Board under programs of the Federal government for the fiscal year ended June 30, 2020. The information in this Schedule is presented in accordance with the requirements of the Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the District.

II. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

III. INDIRECT COST RATE

The District has not elected to use the 10 percent de minimis cost rate allowed under the Uniform Guidance.

IV. NONCASH ASSISTANCE: NATIONAL SCHOOL LUNCH PROGRAM

Includes \$679,375 of donated food received during the fiscal year. Donated foods are valued at fair value as determined at the time of donation.

V. FEDERAL PELL GRANT PROGRAM

On December 13, 2017, the District was placed on HCM2, which provides that the District will only receive reimbursement of Pell funds for properly documented disbursements. As such, the Education Department approved \$1,577,553 of eligible Pell expenditures. Of this amount, \$757,129 was incurred prior to fiscal year ending June 30, 2020.

VI. HEAD START

Expenditures include \$1,046,352 for grant number/program year 04CH010529-02-00.

VII. FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA)

Following a Presidential declaration of a major disaster or emergency, FEMA (CFDA 97.036) awards grants to assist affected entities with the response to, and recovery from, such disasters. In fiscal year 2020, FEMA approved \$342,846 of eligible expenditures for Hurricane Irma and Hurricane Dorian, events that occurred in September 2017 and September 2019, respectively. Of this amount, \$60,949 was incurred prior to fiscal year ending June 30, 2020, and is specifically related to Hurricane Irma.
