Executive Summary

From 2007-08 through 2011-12, the St. Johns County School District saw its amount of funds per student decreased by the Legislature. When funding reductions occur, the District remains responsible for managing student growth, maintaining constitutional class-size requirements, opening new schools and implementing any new legislative mandates.

Although, the 2023 Legislature increased funding for St. Johns County schools by approximately \$49.2 million, the financial and economic pressures still facing the District are tremendous. For example, despite an increase of 18.85 percent in property values this year, the capital outlay millage remains at 1.5 mills rather than the previous levy allowed by law of 2.0 mills. Thus, the ability to raise revenue commensurate with the District's capital needs is severely restricted. Revenues for the Local Capital Improvement Fund are projected to be \$78 million, or approximately \$9.7 million more than the prior year; yet in 2007-08 the Local Capital Improvement Funds generated approximately \$46.8 million. This equates to an approximate 61 percent increase in revenue for capital projects, while at the same time the number of students being served increased by 95 percent from 27,737 students in 2007-08 to 54,145 students in 2023-24. Since 2007-08, the capital outlay budget has lost access to more than \$314 million. This revenue loss will continue to jeopardize our ability to maintain existing schools or build new ones as needed. In addition, the ongoing lack of both operating and capital funding could negatively impact the district's credit rating and its ability to efficiently manage its debt.

On November 3, 2015, to help alleviate the capital funding problem brought on by the aforementioned decreases, the School Board asked the community of St. Johns County to approve a half-penny sales surtax initiative solely for the purpose of funding new construction, renovation/remodeling projects, technology and safety and security measures. The sales tax referendum was passed with more than 60 percent support. This new revenue stream had been steadily growing year over year.

The District's revenue and expenditure budgets have changed significantly since July 2022. Highlights of the 2023-24 budget process are as follows:

- State & local funding has increased by approximately \$49,299,989.
- Per-student funding for 2023-24 is \$8,547.97, or approximately 4.21 percent more than the prior year which equates to an increase of \$345.22 per student. These dollars are earmarked for categorical line items including Safe Schools, Transportation, Class Size Reduction. and the ESE Guaranteed Allocation. Additionally, dollars are earmarked for new noncategorical line items which were rolled into the Base Funding. Even though the "categorical" line item is gone, we are still mandated to fund the programs those funding categories represent including Instructional Materials, Comprehensive Reading Allocation, and the Classroom Teacher & Other Instructional Personnel Salary Increase Allocation.
- Student population for 2023-24 is projected to grow by 7.4 percent, or 3,731 students.
- The 2020 Legislature created the Teacher Salary Increase Allocation (HB 641) which, among other things, requires Florida school districts to increase the minimum base salary to at least \$47,500, or to the minimum amount achievable based on the allocation. The state-wide allocation is set at \$800 million with St. Johns portion being approximately \$13.6 million.
- As a result of the lack of state funding, continued student growth and other downward pressures on the budget, the District is forced to use approximately \$25 million from its fund balance to sustain operations during the 2023-24 school year.
- The 2023-24 budget will provide over 100 additional instructional staff units.

- Other pressures on the District's operating budget include the proper funding mechanisms and related plan designs for its self-insured medical plan, legislated increases in the Florida Retirement
- System contributions and the continued development of the digital learning initiatives and the growth in the Family Empowerment Scholarship program.
- Finally, 2023-24 will be the eighth year in a row the Legislature has intentionally "rolled back" the Required Local Effort to not raise local property taxes. This trend is not sustainable and needs to be addressed before its impact becomes a financial distress to school districts around the state.

Florida continues to be in the lowest tier in the nation in terms of per-student funding for operational needs when compared to other states. As previously mentioned, the funding did increase for 2023-24; however, the state has a long way to go to restore Florida K-12 funding to the 2007-08 level.

It cannot be overstated that the District's capital and maintenance expense budgets continue to be restricted. This is due mainly to the fact that the District student population is growing by 7.4 percent this year and, as stated earlier, has endured several years of declining capital revenue. In fact, the 2007-08 capital fund generated approximately \$46.8 million. The same capital fund will generate only \$78 million in 2023-24. As a reminder, the Florida Legislature reduced the allowable millage levy from 2.0 mills to 1.75 mills in 2008-09 and then again to 1.5 mills in 2009-10. It currently remains at 1.5 mills for 2023-24. For the foreseeable future, capital and maintenance projects must be prioritized with a focus on critical needs only. The District continues to be forced to move from being prepared for growth and using preventive maintenance (in order to minimize costs) to only meeting critical needs.

Although the sales tax revenue added approximately \$27.6 million to the capital budget in the prior fiscal year, it is only a fraction of what is truly needed to address the backlog of new construction, technology, safety, and maintenance demands.

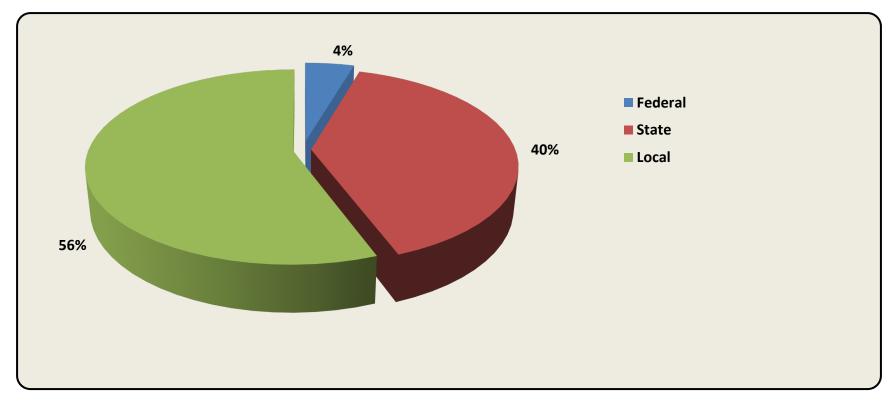

In addition, the sales tax revenue also supports approximately \$5.6 million in principal and interest payments for the construction of an elementary school and a K-8 school. Of course, this is in addition to the approximate \$27 million in principal and interest payments for several previously built schools and other projects and is being funded from the 1.5 mill capital outlay levy mentioned above.

Finally, if the District does not see a significant improvement in per-student base funding in the near future, it will be necessary to once again reduce operating and capital expenditure costs so there is not an emergency when our fund balance has been exhausted.

In closing, past performance is a good predictor of future performance. To review our past financial performance, please visit our web page at www.stjohns.k12.fl.us, and click on Financial Transparency. There you will find detailed information about your school district's financial activity.

Upon successful completion of the dual enrollment course work, students are awarded both high school and college credit.

Programs of Choice

Each high school in the district offers a unique set of educational experiences designated as Programs of Choice. These programs are open to students from across the county and include career academies, accelerated course work and JROTC programs. One high school and one middle school serve as a program of choice for the arts. An application process is required, and families must provide transportation to students attending Programs of Choice away from their zoned school.

Charter School Programs

Currently, three charter schools exist in St. Johns County. They are: Therapeutic Learning Center, providing an Early Childhood program for students with disabilities or developmental delays; St. Johns Community Campus, providing life skills training and experience to young adults ages 18-22 with disabilities or developmental delays; and St. Augustine Public Montessori School, providing a Montessori program to students in grades 1-6. Post-secondary courses designed to meet skilled workforce needs are available at First Coast Technical College.

Adult Education Programs

First Coast Technical College (FCTC) offers support for high school completion or assistance toward earning a general educational diploma (GED). Both adult and high school students are served at FCTC. Financial aid services are available to those who qualify.

ESOL Program

The goal of the ESOL Program is to ensure that all students entering St. Johns County School District, with varying levels of English proficiency, receive comparable and comprehensive instruction. This instruction helps students to develop communication and academic skills necessary for meeting national, state, and district educational standards.

All schools with students classified as English Language Learners (ELL) must provide appropriate ESOL services to meet the specific students' needs in language learning, academic achievement, and in cultural integration. Students in the ESOL program are required to meet the same curriculum standards as non-ELL students in English/Language Arts and content area instruction. The content of the curriculum is established by the Florida Standards. ESOL strategies and supplementary materials, as well as an itinerant ESOL teacher, are used to ensure that comprehensive instruction is being provided to ELL students.

Title I Program

Title I is a supplementary, federally funded educational program. The program is implemented in qualifying schools to provide an enriched and accelerated learning environment for students. Achievement of high academic standards is promoted through the services and resources provided by Title I funds

The purpose of Title I is to improve the academic achievement of economically disadvantaged youth. For the 2023-2024 school year, the following schools have been designated as school-wide programs: Crookshank Elementary, Osceola Elementary, South Woods Elementary, James A. Webster Elementary School, St. Johns Technical H.S., Evelyn Hamblen Center, Hartley Elementary, Otis Mason Elementary, Ketterlinus Elementary, R. J. Murray Middle, Gamble Rogers Middle School.

Budgetary Process

Florida Law requires the School Board to adopt a balanced budget each fiscal year for all funds under its jurisdiction: General Fund, Debt Service Funds, Capital Outlay Funds, Special Revenue Funds and Internal Service Funds.

The law is very specific in defining the process and timetables to be followed in adopting the budget and ad valorem property tax millage rates. By law, the School Board must conduct two public hearings on the proposed budget and millage rates. At both public hearings, the public is invited to comment on the budget and millage rates.

Starting in January of each year, we pull together district departments and school sites to listen to their recommended priorities and then we meet with the Superintendent to build the budget for the upcoming new school year. The district is not required to do this, but chooses to do so because we believe that input from everyone has direct impact on our success as a district.

The Legislature normally finalizes the state budget in the May-June time period. Based on funds available, these priorities are included in the tentative budget.

Certification of Assessed Value of Property

The County Property Appraiser is required to certify to each taxing authority in the county the assessed value of all non-exempt taxable real property in the county. The Property Appraiser, who is independent of the School Board, is required to provide this certification no later than July 1 each year.

Advertisement of Tentative Budget and Millage Rates

The Superintendent is responsible for recommending a tentative budget and proposed ad valorem property tax millage rate to the School Board. By law, the School Board must advertise a tentative budget and the proposed millage rate in a daily newspaper of general circulation in the county within 29 days after receiving the certification from the Property Appraiser. The advertisements contain a budget summary, proposed millage rates, notice of budget hearing or notice of proposed tax increase, and a notice of tax for school capital outlay. The advertisements were published in *The St. Augustine Record* on July 28, 2023. **The Tentative Budget Hearing was held on August 1, 2023, at 5:30 p.m. at St. Johns County School District Auditorium, 40 Orange Street, St. Augustine, FL 32084.**

Proposed Tax

Based on the 2023 tax roll provided by the Florida Department of Revenue and certified by the Commissioner of Education on July 1, 2023, the following is a summary of the Millages to be levied on the 2023 tax roll for the 2023-2024 fiscal year.

Since FY 2000-2001, the Florida Legislature has slowly shifted the majority of the funding for public education to the local county property taxes. Also, the Legislature has shifted state funded categoricals to the FEFP formula where it to is subject to local tax funding.

In order to continue to fund basic education, the Legislature reduced local controlled millage and moved it to the Required Local Effort. This shift has reduced the Local Capital Improvement Millage from 2.00 mills to 1.50, which reduces the District's ability to fund growth for construction.

This year's proposed tax levy is \$293,319,859.

Millage Overview

The Required Local Effort Millage is an appropriated amount set by the Florida Department of Education. The School Board must levy this amount in order to receive state funding.

The Required Local Effort Millage Prior Year Adjustment is an appropriated amount set by the Florida Department of Education. This millage is levied if the prior period Unrealized Required Local Effort funds are greater than zero. The District is required to levy this amount.

Basic Discretionary Millage is used by the School Board to support the general operation of the district. Though this millage is optional, it is an integral part of the Operating Budget.

In FY 2009-10, the Legislature further reduced the Capital Outlay Millage by .25 and added it to the Discretionary Millage. The Discretionary Millage is now set at .748 mills.

For FY 2009-10, the Legislature eliminated the Supplemental .25 Mill Levy, not to exceed \$100 per student. This .25 mills was added to the Required Local Effort Millage.

The Capital Improvement Millage is an amount levied to support the construction, maintenance and equipping of our schools. Its uses and implementation are set by the School Board. Since FY 1994-95, this millage was capped at 2.00 mills.

For FY 2008-09, the Legislature capped this millage at 1.750. The difference was used to help offset the increase in the Required Local Effort (RLE) to fund the FEFP formula.

In FY 2009-10, the millage was further reduced by .25 mills and added to the Discretionary Millage.

The Second (Final) Public Hearing

The second public hearing is required to be held at least 65 days, but not sooner than 60 days, after receiving the tax certification from the Property Appraiser. After this public hearing, the School Board adopts the final budget and a resolution stating the ad valorem property tax millage rates to be levied. The Final Public Hearing is scheduled for September 12, 2023, at 5:30 p.m. at St. Johns County School District Auditorium, 40 Orange Street, St. Augustine, FL 32084.

Accounting and Auditing System

Generally Accepted Accounting Principles (GAAP) are used in the financial accounting and reporting of the St. Johns County School Board. These generally accepted accounting principles are promulgated and published by the Governmental Accounting Standards Board (an independent, non-governmental body). The Governmental Accounting Standards Board is the recognized authority on specific application of generally accepted accounting principles to governmental agencies.

The St. Johns County School Board uses an account classification system specified in <u>Financial and Program Cost Accounting and Reporting for Florida Schools.</u> Staffs within the Financial Management Section of the Florida Department of Education review and the Commissioner of Education approves the School Board's annual budget.

The Florida Department of Education conducts regular financial compliance reviews of the school board to ensure compliance with state regulations. In conjunction with this, the Financial Management Section of the Florida Department of Education reviews the cost reporting system of each district to ensure that the procedures and policies outlined in the Financial and Program Cost Accounting and Reporting for Florida Schools are being properly implemented by the Board.

The Office of the Florida Auditor General or an Independent CPA Firm conducts an audit of the school district on an annual basis. This audit includes all federal and state programs within the district. The Florida Department of Education offers technical assistance to the Board to remedy any problems identified by the auditors.

The St. Johns County School Board also contracts with an independent certified public accounting firm to perform its own internal audit functions and has appointed community members to serve as an audit committee.

State Retirement Program

The Board does not administer a separate retirement plan for its officers and employees. However, pursuant to law, all employees are, with minor exceptions, members of defined retirement plans of the State of Florida administered by the Florida Department of Administration, Division of Retirement. The retirement plans of the State of Florida consist of contributory and non-contributory benefit plans. The plans' accounting and funding policies, actuarial present value of accumulated plan benefits, net assets available for benefits and other plan-related matters are the responsibility of the Florida Department of Administration, Division of Retirement, and are not computed on an individual agency basis.

- Requires the DOE to create an application process for school districts that must include certain data elements. The
 Commissioner of Education must select five school districts to participate in the program representing a variety of
 demographics, which includes an urban, suburban, and rural school district.
- Requires the commissioner to, upon completion of the program, provide a report to the Legislature and the Governor
 which includes data on participation, benefits of the program, barriers to implementation, and recommendations to
 statewide adoption.

The cost of the special magistrate must be borne by the district no matter the merits of the complaint or outcome of the case. The special magistrate will render a recommended decision within 30

HB 1069 Education

- Specific requirements for particular terminology and instruction relative to health and reproductive education in schools

 reproductive health courses have not been considered part of the core curriculum and therefore have been adopted by
 local school boards.

- Prohibits district school boards from imposing or enforcing requirements that personnel or students be referenced with pronouns that do not correspond with biological sex as defined in the bill.
- Makes district school boards responsible for the contents of classroom libraries, in addition to instructional materials and school libraries.

- A district school board must also discontinue the use of any material the board does not allow a parent to read aloud.

- Modifies the definition of the term "termination" to include the provision of services to all employers.

 employer. Allows Department of Management Service (OMS) or State Board of Administration (SBA) to require evidence of
 termination necessary to determine compliance.
- Creates a definition of volunteer services for purposes of retirement and allows FRS employers to create a volunteer program if it meets the following criteria: '
 - No agreement existed between volunteer and FRS employer prior to retirement to provide services;

- No compensation can be provided in any form;
- No benefits can be provided unless specifically authorized in law. However uniforms and equipment/supplies
 necessary to complete volunteer tasks may be provided;
- Limits volunteer's hours to no more than 20% of hours per week provided prior to retirement, including training hours;

- Effective July 1, 2023

HB 1125 Interstate Education Compacts

- Adopts the Interstate Teacher Mobility Compact (ITMC or Compact) model legislation into Florida Statute. The ITMC
 establishes a regulatory framework to allow teachers with an eligible license held in a Compact member state to be granted
 an equivalent license in another Compact member state, lowering barriers to teacher mobility and getting teachers back
 into the classroom more seamlessly.
- Teachers holding a Compact-eligible license can apply for licensure in another member state and receive the closest equivalent license without submitting additional materials, taking statespecific exams, or completing additional coursework.
- The Compact includes special exceptions for some populations to support equitable access. The Compact specifies that:
 - Due to the mobility patterns of military spouses, the barriers to receiving a professional, rather than temporary or provisional, license are much higher; therefore teachers meeting the definition of an eligible military spouse may use a temporary or provisional license for the purposes of the Compact.
 - Career and technical education teaching licenses often do not require a bachelor's degree as a requirement for licensure; the Compact allows these licenses to be considered eligible without that requirement.
- The ITMC legislation is comprised of 13 articles, which, in part:
 - Specify that the Compact does not remove the authority of the receiving state to regulate licensure and
 endorsements, which may also require teachers under the Compact to meet licensure renewal requirements for
 that state.

- Require a teacher to undergo a criminal background check in the receiving state.
- Create the ITMC Commission, composed of representatives of the member states, to administer the Compact; its
 rules are binding to member states.
- Require the ITMC Commission to facilitate the exchange of information, which does not alter the ownership of the data by member states.
- Establish procedures for disciplinary actions for member states that fail to comply with the requirements of the Compact.
- Specify that the provisions of the Compact supersede other state laws that are in conflict.
- Signed by the Governor. Effective July 1, 2023

HB 1127 Public Records and Meetings/Interstate Education Compacts

- Creates an exemption from public records requirements for records held by the Commissioner of Education (commissioner) or Department of Education regarding the investigation and discipline of teachers in other Interstate Teacher Mobility Compact (ITMC or Compact) member states. This public records exemption is aligned to the existing public records exemption for Florida's teacher investigation and discipline records. As set forth in the ITMC, the bill requires that before disclosing any disciplinary or investigatory information received from another member state, the disclosing state must communicate its intention and purpose for such disclosure to the member state that originally provided that information.
- Creates an exemption from public meetings requirements for any meeting or portion of a meeting of the ITMC Commission or executive committee which discuss information specified in law.
- Provides that public records and public meeting exemptions are a public necessity because without these protections for records received by the commissioner or DOE, or for TMC Commission meetings, Florida would be unable to participate in the ITMC.
- This bill is subject to the Open Government Sunset Review Act and stands repealed on October 2, 2028, unless reviewed and saved from repeal through reenactment by the Legislature.
- Signed by the Governor. Effective July 1, 2023

HB 1259 Education

- Clarifies that charter school capital outlay funding must consist of state funds when said funds are appropriated in the General Appropriations Act (GAA) and revenue resulting from discretionary capital outlay millage authorized in statute. The bill removes the specified state funding threshold.
- Revises the calculation methodology the Department of Education (DOE) uses to allocate state funds appropriated in the
 GAA to eligible charter schools. The bill specifies that state funds must be allocated on the basis of unweighted full-time
 equivalent (FTE) students and removes the additional FTE weight for students that are eligible for free and reduced lunch
 and students with disabilities.
- Removes the state funding threshold from the calculation methodology used by the DOE to determine the amount of the
 discretionary capital outlay millage revenue a school district must distribute to each eligible charter school. To reduce the
 initial burden on school districts and provide for a transition to the required sharing of the 1.5 millage revenue, the bill
 provides a 5-year glide path whereby school districts share the following percentages of the calculated amount:
 - For fiscal year 2023-2024 20 percent.
 - For fiscal year 2024-2025 40 percent.
 - For fiscal year 2025-2026 60 percent.
 - For fiscal year 2026-2027 80 percent.
 - For fiscal year 2027-2028, and each fiscal year thereafter 100 percent.
- Adds reasons a charter school would not be eligible to receive capital outlay funds, if:
 - The school is a developmental research (laboratory) school that receives state funding for capital improvement purposes.
 - A member of the governing board, or his or her family member, has an interest in or is an employee of the lessor
 of the charter school property, unless the charter is a charter school-in-the-workplace or a charter school-in-amunicipality.
- Requires a charter school to attest in writing to the DOE, that, if the charter school is nonrenewed or terminated, any
 unencumbered funds and all equipment and property purchased with the public funds must revert to the district school
 board. Also, the bill requires purchases, lease-purchases, or leases by a charter school using charter capital outlay funds to
 be at the appraised value, defined as the fair market value to be determined by an independent, Florida licensed, qualified
 appraiser selected by the charter school governing board.

- Clarifies that the calculation of each school district's enrollment for purposes of calculating the proportionate share of the school capital outlay surtax must be based on capital outlay full-time equivalent enrollment (COFTE), rather than the total school district enrollment.
- Signed by the Governor. Effective July 1, 2023

 - For custodial, maintenance, or inspection purposes, provided that the facility is not in use.
 - If the appropriate designated facility is out of order or under repair and the facility designated for the opposite sex contains no person of the opposite sex.
 - Provides that the failure to depart a facility designated for the opposite sex by persons other than the covered entity's employees constitutes the offense of trespass. The law (or in the case of schools, rule) is only broken when a person is asked to leave the facility and does not immediately depart.
 - Allows an employee of a covered entity to request a person to depart a facility designated for the opposite sex on a covered entity's premises when the entry is not for an authorized purpose.
 - Requires each type of covered entity to establish disciplinary procedures for its employees, certain persons under its control (for our purposes, schools), and other personnel described in the bill for failing to follow these requirements.

- Does not apply to persons born with a medically verifiable genetic disorder of sexual development under treatment by a physician, with certain specified conditions.
- Gives the Attorney General enforcement authority, including the authority to seek injunctive relief and impose fines of up to \$10,000.

MILLAGE

MILLAGE OVERVIEW

Annually, property owners in St. Johns County pay property taxes. Part of their property taxes are levied by the School Board to support the St. Johns County School District.

This year, the proposed tentative levy is **5.410** and is composed of the following:

Required Local Effort	3.160
Prior Period Funding Adjustment	0.002
Basic Discretionary	0.748
Capital Improvement	<u>1.500</u>
Total Millage	5.410

On July 18, 2023, the Florida Department of Revenue certified the 2023-24 estimate of the tax roll that is the basis for determining the Required Local Effort (RLE) millage rate in the Florida Education Finance Program (FEFP). Also certified were the 2022-23 final tax rolls, which are used to calculate the Prior Period Funding Adjustment Millage (PPFAM) pursuant to Section 1011.62(4)(e), Florida Statutes (F.S). Districts are required to levy the PPFAM millage in addition to the RLE millage. The PPFAM offsets the unrealized RLE revenue resulting from a tax roll decrease that occurs when the certified final tax roll is less than the tax roll used in the FEFP calculation.

Basic Discretionary Millage is used by the School Board to support the general operation of the district. Though this millage is optional, it is an integral part of the Operating Budget. Since FY1991-92, this millage had been set at 0.510 mills. For FY 2008-09, the Legislature capped this millage at 0.498. For FY 2009-10, the Legislature further reduced the Capital Outlay Millage by 0.250 and added it to the Basic Discretionary Millage. The Basic Discretionary Millage is now set at 0.748 mills.

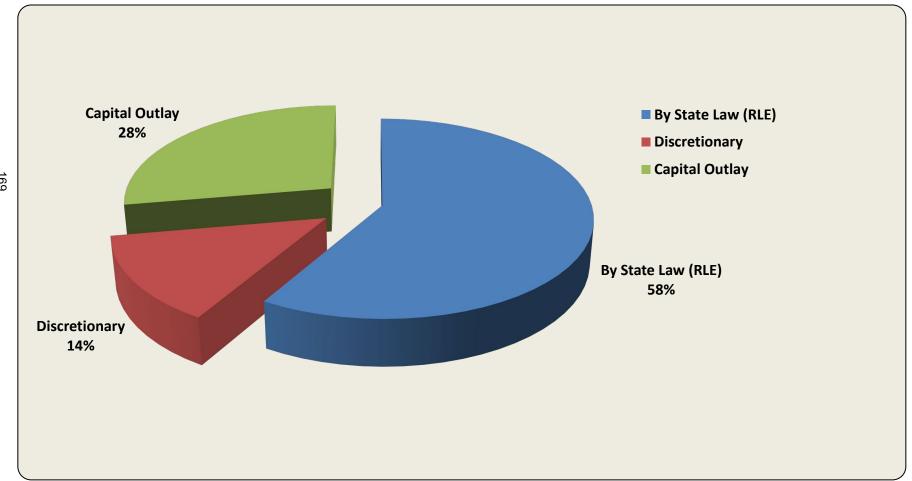

The Capital Improvement Millage is an amount levied to support the construction, maintenance and equipping of our schools. Its uses and implementation are set by the School Board. Since FY 1994-95, this millage was capped at 2.00 mills. In the FY 2008-09, the Legislature capped this millage rate at 1.750. The difference was used to help offset the increase in the Required Local Effort (RLE) to fund the FEFP formula. For FY 2009-10, the millage was further reduced by 0.250 mills and moved to the Basic Discretionary Millage. This resulted in the Capital Improvement Millage capped at 1.500, where it stands today.

GENERAL OPERATING FUND OVERVIEW 2023-2024

The St. Johns County School District's General Fund or Operating Fund is the largest fund in the district's budget. Beginning with 2016-2017 the General Fund absorbed the Post-Secondary programs for the First Coast Technical College (FCTC).

The General Operating Fund is used to pay the salaries and benefits of employees such as classroom teachers, school principals, school secretaries, and school custodians. The funds are also used to buy items such as textbooks, library books, classroom supplies, equipment, etc. In addition, these monies provide for such expenses as the schools' utilities and communications bills.

The K-12 General Fund is supported mainly through the Florida Education Finance Program (FEFP). The funding source for the FEFP comes from two primary sources, state sales tax and local millage. The local millage is, of course, the property taxes collected in St. Johns County.

From 2007-2008 through 2011-2012, the St. Johns County School District saw its amount of funds per student decreased by the Legislature. When budget reductions occur, the district remains responsible for managing student growth, maintaining constitutional class-size requirements, opening new schools, and implementing any innovative programs. For example, since 2007-08, the Base Student Allocation (BSA) has grown from \$4,163.47 per FTE to \$5,139.73. This is a \$976.26 increase over 16 years or approximately 23.45 percent. The 2023-2024 BSA increased approximately \$552.33 per student over last year's BSA of \$4,587.40. The per student funding for 2023-2024 is \$8,547.97, and more than four percent over last year. The increase is due primarily to the increase in the base student allocation.

Although the 2023 Legislature increased funding for St. Johns County schools by \$49.2 million, the financial and economic pressures still facing the district are tremendous. The growth in St. Johns County and the 2022 legislative mandate increasing the minimum wage to \$15 per hour has brought on a new set of fiscal responsibilities and challenges for the district as outlined in the Executive Summary.

As this year's Operating Budget (including post-secondary) will total approximately \$511 million, Florida continues to be in the lowest tiers in terms of per-student funding for operational needs when compared to other states.

In closing, past performance is a good predictor of future performance. To review our past financial performance, please visit our web page at www.stjohns.k12.fl.us. If you visit the District's web page and click on **Financial Transparency**, you will find detailed information about our financial activity.

CALCULATION OF THE 2023-2024 FLORIDA EDUCATION FINANCE PROGRAM

In 1973, the Florida Legislature enacted the Florida Education Finance Program (FEFP), which offers as its purpose:

To guarantee to each student in the Florida public educational system the availability of programs and services appropriate to his (or her) educational needs which are substantially equal to those available to any similar student notwithstanding geographical differences and varying local economic factors.

The FEFP provides a formula that substantially determines the amount of money that will be available to the St. Johns County School District within its General Fund for the 2023-2024 fiscal year. The formula considers the varying local non-exempt assessed valuations for property taxing purposes, the costs of varying educational programs, the varying costs of providing education services within the vast geographic area of the state, and the costs of education within a given school district. The actual formula for the 2023-2024 school year appears as follows:

PROJECTED WEIGHTED FTE		BASE STUDENT ALLOCATION		DISTRICT COST DIFFERENTIAL		SAFE SCHOOLS ALLOCATION		EDUCATIONAL ENRICHMENT INSTRUCTION
59,990.30	X	\$5,139.73	X	1.0000	+	\$3,492,035	+	\$12,101,811

0.748 MILLS COMPRESSION		GROSS STATE AND LOCAL FEFP						

\$4,123,178 = \$369,948,982

Approximately 56 percent of the available operating revenues are generated through the Florida Education Finance Program (FEFP). This formula now determines both categorical and non-categorical amounts of dollars to be generated by the district and is composed of both state and local funds. The Legislature sets the Base Student Allocation (BSA), the District Cost Differential (DCD) and the program weights to be used as factors in the formula. The funded BSA for FY 2023-2024 is \$5,139.73 (BSA x District Cost Differential). This is an increase of \$552.33 as compared to the FY 2022-2023 funded BSA of \$4,587.40.

Projected revenues, transfers, and fund balances for the K-12 General Operating Fund total \$502,003,302.62. State sources amount to \$234,017,380. This represents 47 percent of the total operating budget. Categorical and mandated funds totals \$106,788,763 and includes Transportation, Class Size Reduction, ESE Guarantee, DJJ Supplement, Safe Schools, Educational Enrichment Instruction, and Mental Health Allocation which again are restricted to certain uses as determined by the Legislature and represents 21 percent of the total operating budget. Total local sources are projected at \$207,723,158. They are made up of taxes, interest earnings, and other miscellaneous revenues. Local sources make up approximately 41 percent of the total operating budget.

FLORIDA EDUCATION FINANCE PROGRAM DEFINITIONS/TERMS

FLORIDA EDUCATION FINANCE PROGRAM (FEFP):

The funding formula established by the Legislature in 1973 for funding public schools.

FULL TIME EQUIVALENT STUDENT (FTE):

A definition utilized in the state funding formula for identifying the student count for each district for the programs offered. Often referred to as unweighted FTE, it is student membership within the programs offered.

PROGRAM COST FACTORS:

Program cost factors serve to assure that each program receives its equitable share of funds in relation to its relative cost per student. The cost factors help recognize the varying costs among programs based on a three-year average.

WEIGHTED FTE:

This is derived by multiplying the unweighted FTE by the program cost factors.

BASE STUDENT ALLOCATION (BSA):

This is set annually by the Legislature. This is the amount a full-time equivalent student (FTE) will generate in a program with a cost factor of 1.00. For 2023-2024, the BSA is \$5,139.73.

COMPARABLE WAGE FACTOR:

This was formerly known as the District Cost Differential (DCD). The Comparable Wage Factor is used to adjust funding to reflect the differing costs of living in the various districts within the state. It is based on the average of each district's three most recent years of the Florida Price Level Index. For St. Johns County, the adjusted figure for 2023-2024 is **1.000**.

BASE FUNDING:

This is derived by the following formula: (Unweighted FTE x program cost factors x BSA x DCD)

SUPPLEMENTAL FUNDING:

Additional funding within the formula allocated for a specific purpose.

CAPITAL OUTLAY FUND

ST. JOHNS COUNTY SCHOOL DISTRICT 2023-2024 FINAL CAPITAL OUTLAY BUDGET

First Coast Technical College (FCTC) Hastings Campus Hastings High School Renovations

September 12, 2023

CAPITAL OUTLAY BUDGET FY 2023-2024

The Capital Outlay Budget for 2023-2024 is designed to support the St. Johns County School District Strategic Plan, provide for the continued implementation of the District's Building Program, provide necessary resources for maintenance, and support the demand for technology.

The 2023-2024 Capital Outlay Budget demonstrates the commitment and trust shown by St. Johns County voters to support our school district. The November 2015 approval of a half-cent sales surtax for school capital needs was projected to raise more than \$150 million over ten (10) years. The sales tax has already raised over \$180 million dollars. These funds are earmarked for new construction, maintenance and renovation of existing facilities, technology enhancements, and school safety and security improvements. Specifically included in the 2023-2024 Capital Outlay Budget are sales tax funds for the following: partial roof replacements at Switzerland Point Middle School and Fullerwood Training Center; a computer refresh for teachers, additional technology for students; security improvements to include the expansion of the mobile panic alarm badge system; miscellaneous districtwide safety and security improvements; and savings for future school construction.

The 2023-2024 Capital Outlay Budget is comprised of four parts:

Part I Summary Budget, including estimated revenue and appropriations, identifies new and continuing projects which includes the local millage and how it will be allocated

Part II Summary spreadsheet by facility including Continuing Projects, New Projects, Equipment Purchases, Maintenance, Existing Conditions, and Facility Total

Part III Distribution of Capital Outlay Equipment Allocation to schools

Part IV Details of Capital Outlay Maintenance and Existing Conditions by facility

The 2023-2024 Capital Outlay Budget is built on the legislatively capped 1.5 millage rate, funds generated through the half-cent sales surtax, school impact fees, proportionate share mitigation and state CO & DS funds. Likewise, the Five-Year District Facilities Work Plan is also based these same funds projected over the next five years.

The Fund Balance/Continuing Projects was adjusted based on the final closeout of the 2022-2023 budget.
