St JOHNS COUNTY SCHOOL DISTRICT THIRD GRADE - SCIENCE - PUBLIC YEAR-AT-A-GLANCE 2020-2021

	Standards (click on the Standard coding to go to additional information and resources)	At Home Resources
Standards Visited all Year	The Practice of Science SC.3.N.1.1 Raise questions about the natural world and investigate those questions SC.3.N.1.2 Compare observations made by different groups and seek to explain the differences SC.3.N.1.3 Keep appropriate records of investigations SC.3.N.1.4 Recognize importance of communication among scientists SC.3.N.1.5 Recognize that scientists question, discuss, and check each others work SC.3.N.1.6 Infer based on observations SC.3.N.1.7 Explain that evidence is information SC.3.N.3.1 Recognize that words in science can have different meanings than their use in every day language SC.3.N.3.2 Recognize that scientists use models to help understand and explain how things work SC.3.N.3.3 Recognize that models are approximations	<u>Scientific Method</u> <u>Measurement Tools</u>
QUARTER 1 AUG 31 – OCT 30	<u>SC.3.P.8.1</u> Measure and compare temperatures of solids and liquids <u>SC.3.P.8.2</u> Measure and compare mass and volume of solids and liquids <u>SC.3.P.8.3</u> Compare properties of materials (size, shape, color, texture, hardness) <u>SC.3.P.9.1</u> Describe the changes water undergoes when changing physical states of matter	<u>Properties of Matter</u> <u>Solids, Liquids and Gases</u> <u>Measure and Compare</u> <u>Temperatures</u>
QUARter 2 Nov 2- Jan 25	<u>SC.3.L.14.1</u> Describe the structure and function of major plant parts <u>SC.3.L.14.2</u> Investigate and describe how plants respond to heat, light, and gravity <u>SC.3.L.15.1</u> Classify animals (mammals, birds, reptiles, amphibians, fish, arthropods, vertebrates and invertebrates, live birth and those which lay eggs) <u>SC.3.L.15.2</u> Classify flowering and non-flowering plants (seed producing vs spores) <u>SC.3.L.17.1</u> Describe how plants and animals respond to changing seasons <u>SC.3.L.17.2</u> Recognize that plants use energy from the Sun, air, and water to make food	Parts of a Plant <u>Plant Parts</u> <u>Plant Response to Heat, Light,</u> <u>Gravity</u> <u>Animal Classifications</u> <u>Plant Classifications</u> <u>Adaptation</u> <u>Ecosystems</u>
QUARTER 3 JAN 26 – APR 8	<u>SC.3.E.5.1</u> Explain that stars can be different <u>SC.3.E.5.2</u> Identify the Sun as a star that emits energy, some in the form of light <u>SC.3.E.5.3</u> Recognize that the Sun appears large and bright because it is the closest to Earth <u>SC.3.E.5.4</u> Explore the Law of Gravity <u>SC.3.E.5.5</u> Investigate that the number of stars seen through telescopes is more than the eye <u>SC.3.E.6.1</u> Demonstrate that energy from the Sun can heat objects	<u>Stars</u> <u>Gravity</u>
QUARTER 4 APR 8 – JUN 10	<u>SC.3.P.10.1</u> Identify basic forms of energy <u>SC.3.P.10.2</u> Recognize that energy has the ability to cause motion or create change <u>SC.3.P.10.3</u> Demonstrate that light travels in a straight line <u>SC.3.P.10.4</u> Demonstrate that light can be reflected, refracted, and absorbed <u>SC.3.P.11.1</u> Investigate, observe, and explain that things that give off light often give off heat <u>SC.3.P.11.2</u> Investigate, observe, and explain that heat is produced when an object rubs against another	<u>All About Energy</u> <u>Heat Energy</u> <u>Light Energy</u> <u>Friction and Heat</u>
