

7th Grade Science - Year at a Glance
M/J Comprehensive Science 2, Course # 2002070

A Note to Parents: State standards require your child’s science teacher to plan lessons that build knowledge of various scientific concepts, develop the ability to apply these concepts, and engage students in critical thinking. To achieve these goals, students will take part in a range of activities including reading, discussions, writing, lab activities and projects, and more. Safety is paramount in science labs and your child’s teacher will ensure a safe learning environment.

The best way to ensure your child’s success is to work as a team that includes you, your child, and your child’s teacher.

What is the purpose of this course?

- The purpose of this course is to provide opportunities to study concepts of the life, earth/space, and physical sciences, and their applications to everyday life.

What will students be learning in this course?

	Topics
Quarter 1	<ul style="list-style-type: none"> • The Nature and Practice of Science • Forms of Energy • Heat and Thermal Energy
Quarter 2	<ul style="list-style-type: none"> • Waves • Earth Structures
Quarter 3	<ul style="list-style-type: none"> • Plate Tectonics • The Age of Earth • Genetics • Cell Division
Quarter 4	<ul style="list-style-type: none"> • Ecosystems and Food Webs • Symbiosis • Evolution/Natural Selection • Human Impact on Earth

Possible Support Resources

Amoeba Sisters for Biological Topics: <https://www.youtube.com/user/AmoebaSisters>

Student tutorials: <https://www.floridastudents.org/#29|0|0|0>

Simulations can be found at: <https://phet.colorado.edu/>

Schoology: the teacher’s site will have assignment information.

Videos: Study Jams- <https://studyjams.scholastic.com/studyjams/jams/science/index.htm>

Courses are designed so that all standards will be learned by the end of the course. This guide represents a recommended timeline and sequence to be used voluntarily by teachers for planning purposes. Specific questions regarding when content will be addressed in a specific course are best answered by the individual teacher.
