

7th Grade ELA- Year at a Glance

M/J Language Arts 2- Standard and Advanced Levels

This course defines what students should understand and be able to do by the end of 7th grade. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning to students a greater quantity of work.

What is the purpose of this course?

The purpose of this course is to provide 7th grade students with an integrated study of English- Language Arts using reading, writing, speaking, listening, and language for college and career preparation and readiness.

The content should include, but not be limited to, the following:

- active reading of varied texts for what they say explicitly, as well as logical inferences that can be drawn
- analysis of literature and informational texts from varied literary periods to examine:
 - text craft and structure
 - elements of literature
 - arguments and claims supported by textual evidence
 - power and impact of language
 - influence of history, culture, and setting on language
 - personal critical and aesthetic response
- writing for varied purposes
 - developing and supporting argumentative claims
 - crafting coherent, supported expository texts

- responding to literature for personal and analytical purposes
- writing narratives to develop real or imagined events
- writing on sources (short and longer research) using text-based claims and evidence
- effective listening, speaking, and viewing strategies with emphasis on the use of evidence to support or refute a claim in multimedia presentations, class discussions, and extended text discussions
- collaboration amongst peers

What will 7th Grade students be expected to do?

In the 2023-2024 school year, SJCS D will continue to use the Florida B.E.S.T. Standards as the tool to guide ELA instruction in our schools. According to the [ELA B.E.S.T. Standards](#) (p. 78),

In grades 6-8, analysis and writing are the primary foci. Rhetoric is introduced in 6th grade [and continued to be studied in 7th and 8th]. In this grade band, students go from explaining theme to analyzing it. Students progress from examining character perspective to working with complex narrator types. Students are also being introduced to literature from historic time periods. This framework should help students in building a body of knowledge useful in being able to interpret multiple layers of meaning. In middle school, those periods are as follows:

- Colonial and Early National Period (1600–1830) American Literature
- Romantic Period (1790–1870)
- Realism and Naturalism Period (1870–1930)
- Modernist Period (1910–1945)
- Contemporary Period (1945–present)

The FLDOE’s “Parent Guide for Seventh Grade English-Language Arts” is an excellent resource for the specifics of the ELA standards as they pertain to this grade level. You can access that document via this link: <https://www.fldoe.org/core/fileparse.php/7539/urlt/pgg-7-standards.pdf>.
