

English 4 – Year-at-a-Glance

English 4- Standard and Honors Levels

From the FLDOE Course Description:

This course defines what students should understand and be able to do by the end of English 4. Knowledge acquisition should be the primary purpose of any reading approach as the systematic building of a wide range of knowledge across domains is a prerequisite to higher literacy. At this grade level, students are building their facility with rhetoric, the craft of using language in writing and speaking, using classic literature, essays, and speeches as mentor texts.

The benchmarks in this course are mastery goals that students are expected to attain by the end of the year. To build mastery, students will continue to review and apply earlier grade-level benchmarks and expectations.

English Language Arts is not a discrete set of skills, but a rich discipline with meaningful, significant content, the knowledge of which helps all students actively and fully participate in our society.

Standards should not stand alone as a separate focus for instruction, but should be combined purposefully.

The texts students read should be meaningful and thought-provoking, preparing them to be informed, civic-minded members of their community.

Curricular content for all subjects must integrate critical-thinking, problem-solving, and workforce-literacy skills; communication, reading, and writing skills; mathematics skills; collaboration skills; contextual and applied-learning skills; technology-literacy skills; information and media-literacy skills; and civic-engagement skills.

Honors and Advanced Level Course Note: Advanced courses require a greater demand on students through increased academic rigor. Academic rigor is obtained through the application, analysis, evaluation, and creation of complex ideas that are often abstract and multi-faceted. Students are challenged to think and collaborate critically on the content they are learning. Honors level rigor will be achieved by increasing text complexity through text selection, focus on high-level qualitative measures, and complexity of task. Instruction will be structured to give students a deeper understanding of conceptual themes and organization within and across disciplines. Academic rigor is more than simply assigning students a greater quantity of work.

What will English 4 students be expected to do?

In the 2023-2024 school year, SJCSD will continue to use the Florida B.E.S.T. Standards as the tool to guide ELA instruction in our schools. According to the [ELA B.E.S.T. Standards](#) (p. 104),

In grades 9-12, students are moving beyond analysis and evaluating writing, looking at particular techniques an author uses to add levels of meaning. Students continue to be introduced to literature from historic time periods. This framework will help students in building a body of knowledge useful in being able to interpret multiple layers of meaning. In high school, those periods begin with the Classical Period and continue to the present:

- *Classical Period (1200 BCE–455 CE)*
- *Medieval Period (455 CE–1485 CE)*
- *Renaissance Period (1300–1600)*
- *Restoration and 18th Century (1660–1790) British Literature*
- *Colonial and Early National Period (1600–1830) American Literature*
- *Romantic Period (1790–1870)*
- *Realism and Naturalism Period (1870–1930)*
- *Modernist Period (1910–1945)*
- *Contemporary Period (1945–present)*
