

6th Grade Accelerated Honors Science - Year at a Glance
M/J Comprehensive Science 1 Accelerated Honors, Course # 2002055

A Note to Parents: State standards require your child's science teacher to plan lessons that build knowledge of various scientific concepts, develop the ability to apply these concepts, and engage students in critical thinking. To achieve these goals, students will take part in a range of activities including reading, discussions, writing, lab activities and projects, and more. Safety is paramount in science labs and your child's teacher will ensure a safe learning environment.

The best way to ensure your child's success is to work as a team that includes you, your child, and your child's teacher.

What is the purpose of this course?

- The purpose of this course is to provide opportunities to study concepts of the life, earth/space, and physical sciences, and their applications to everyday life.
- This rigorous course covers the 6th grade and advanced 6th grade standards, as well as half of the 8th grade standard and advanced materials.

What will Accelerated Grade 6 students be learning?

Topics

Quarter 1

- The Nature and Practice of Science
- Energy Transfer and Transformation
- Distance vs. Time Graphs
- Forces

Quarter 2

- Matter
- Density, Mass, and Weight
- The Periodic Table
- Elements and Compounds
- Acids and Bases
- Physical and Chemical Changes

Quarter 3

- The Cell Theory
- Cell Types and Structure/Function of Organelles
- Classification
- Functions of Systems of the Body
- Infectious Agents

Quarter 4

- Interactions between Earth's Spheres
- Earth's Atmosphere
- Weather
- Weathering/Erosion/Deposition and Landforms

Possible Support Resources

Amoeba Sisters for Biological Topics:
