

7th Grade Accelerated Honors Science - Year at a Glance
M/J Comprehensive Science 2 Accelerated Honors, Course # 2002085

A Note to Parents: State standards require your child's science teacher to plan lessons that build knowledge of various scientific concepts, develop the ability to apply these concepts, and engage students in critical thinking. To achieve these goals, students will take part in a range of activities including reading, discussions, writing, lab activities and projects, and more. Safety is paramount in science labs and your child's teacher will ensure a safe learning environment. The best way to ensure your child's success is to work as a team that includes you, your child, and your child's teacher.

What is the purpose of this course?

- The purpose of this course is to provide opportunities to study concepts of the life, earth/space, and physical sciences, and their applications to everyday life.
- This rigorous course covers the 7th grade and advanced 7th grade standards, as well as half of the 8th grade standard and advanced standards.

What will Accelerated Grade 7 students be learning?

Topics

Quarter 1

- The Nature and Practice of Science
- Forms of Energy
- Heat and Thermal Energy
- Waves

Quarter 2

- Earth's Structures
- Plate Tectonics
- Age of the Earth
- Cell Division

Quarter 3

- Genetics
- Evolution/Natural Selection
- Ecosystems and Food Webs, Symbiosis
- Carbon Cycle
- Photosynthesis and Cellular Respiration

Quarter 4

- The Universe
- Stars and Solar Properties
- The Solar System
- Season, Tides, Eclipses, and Phases of the Moon
- Studying Space with Technology

Possible Support Resources
